Dated	14-9-1876	195-

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
14th September 1876. No 2,456*

No. 221. Read the following Circular letter from Major-General W. A. CROMMELIN, R.E., Deputy Secretary to the Government of India, Public Works Department, (Military Works,) to the Governments of Madras, Bombay, Bengal, North-Western Provinces, and the Punjab, in the Public Works Department; the Chief Commissioners of Oudh, Central Provinces, British Burmah, Mysore and Coorg, and Assam; the Resident at Hyderabad; the Agents of the Governor-General for Central India and Rajpootana, the Superintendent of Port Blair, and Chief Commissioner, Andaman and Nicobar Islands, the Inspector-General of Military Works, dated Simla, 29th August 1876, No 53-P W. —

In continuation of Public Works Department Circular, No. 47, dated the 27th July 1875, I am directed to state that, since the standard plan of armourer's shop for Native troops was issued, it has been ascertained that the barrel boiler or trough now supplied by the Ordnance Department has an internal length of 3' 6" only instead of 3' 8" as shown in the plan. I am to request, therefore, that the figures on the standard plan issued with the Circular above referred to may be corrected accordingly.

Copy forwarded to the Military Department, Adjutant-General, Quartermaster-General, and Sanitary Commissioner with the Government of India, for information.

No. 222 ORDER THEREON, 14th September 1876, No 2,456.
