*Proceedings of the Madras Government, Public Works Department,
18th September 1876. No. 2,492.*

No. 292. Read the following letter from Lieutenant D McNEIL CAMPBELL, R.E, Executive Engineer in charge Godavery District, to Lieutenant-Colonel J. MULLINS, R.E, Chief Engineer for Irrigation, dated Dowlaishweram, 26th August 1876, No. 1,458.—

I HAVE the honor to bring to your notice that the estimate of Rupees 660 sanctioned in G O, No. 247, of the 27th January 1875, for surveying the Godavery river above the anicut beyond the limits shown in the annual charts, has been exceeded by Rupees 23, which, though within 5 per cent, the Examiner of Public Works Accounts states is not admissible without the formal sanction of Government.

2. The Divisional Officer states that it is impossible to explain the cause of this excess, (which is insignificant when compared with the amount of the estimate) except that the original estimate was really an approximate one. Much of the work done consisted in surveying the outlying lunkas in the river, and as many of these were covered with tall lunka grass, it was difficult to range out and chain the lines.

3. I herewith submit a revised estimate amounting to Rupees 683, and request you will be good enough to obtain the sanction of Government for the same, in lieu of that sanctioned in Government Order above alluded to.

It is observed that Rupees 653 have already been spent in the previous year, and the balance (Rupees 30) will be met from the provision for Survey Establishment, Irrigation Budget, 1876-77.
