Government of Madras

Public Work DEPARTMENT

G.O. No. 252-53 (1) Press
B.P. No: — Mis. —

Dated 29-1- 1876.

Not to be folded or roughly handled

No. 536. Read the following letter from Lieutenant-Colonel J. J. McLEOD INNES, R E, Deputy Secretary to the Government of India, Public Works Department, (Account—Irrigation,) to Major-General G. W. WALKER, R E, Secretary to the Government of Madras, Public Works Department, dated Fort William, 17th January 1876, No 32 A I —

WITH reference to paragraph 3 of Public Works Department letter, No 22—29 A I, dated 14th January 1876, in which it was stated that the amount of the revised estimate of expenditure for 1875-76 therein called for should not be in excess of the sanctioned Budget grant, I am directed to request that it in consequence of the abnormal* rate of outlay on Ordinary Irrigation Works during the first nine months of the year, it is expected that the expenditure will be in excess of the grant, the amount of such expected excess should be shown as a distinct item in the estimate called for

* *Vide* letter to Madras, No 4 A I, dated 10th January 1876.

2 I am to say that this request must be considered as containing no authority whatever for expenditure in excess of the grant, or of conveying a recognition that the excess outlay, if any, will be incurred with the approval or cognizance of the Government of India.

No. 537. ORDER THEREON, 29th January 1876, No 252

IRRIGATION, No 37.
Account

ORDERED that a copy of these Proceedings containing the Regular Estimate called for by the Government of India, which has been prepared on the information available in the offices of the Controller of Public Works Accounts and of the Chief Engineer for Irrigation, be transmitted for the information of the Government of India

2 Explanation has been given in an appended statement of the excesses under Ordinary, with the exception of that shown as suspense balance, and application has been already made to the Government of India for supplemental grants to cover excess expenditure on works It will be requested that, for the corresponding excess on establishments, authority may be granted, and it will amount to about Rupees 41,900 as shown in the statement

3. Regarding the suspense balance, which represents the increased value of stock, there is no information which will show what the balance is likely to be on the 31st March, but measures will be taken to ensure its reduction as far as may be practicable. According to the latest accounts the increase stood at about Rs 35,000 on the 31st December, and in case a reduction to the former value should not be feasible, the Government of India will be requested to allow of the Budget grant under Ordinary being exceeded to the extent which may be shown in the accounts of

the last month of the year, it being improbable that the excess will be more than Rupees 25,000, and there being no Budget credits available for re-appropriation, except possibly some small amount under Tools and Plant.

To,

The Secretary to the Government of Madras,

Public Works Department
Irrigation Branch

Fort William, 17th Jany 1876.

Sir,

With reference to para: 3 of Public Works Department letter No 22/29 A. dated 14th January/76, in which it was stated that the amount of the revised estimate of expenditure for 1875-76 therein called for should not be in excess of the sanctioned budget grant, I am directed to request that, if in consequence of the abnormal rate of outlay on Ordinary Irrigation Works during the first nine months of the year, it is expected that the expenditure will be in excess of the grant, &c

X Vide letter to Madras No 4 I. dated 10th January/76

the amount of such expected excess
should be shown as a distinct item
in the estimate called for.

2. I am to say that this request
must be considered as containing no
authority whatever for a departure in
excess of the grant, or of conveying a
recognition that the excess outlay, if
any, will be incurred with the approval
or cognizance of the Government of
India
