MEMORANDUM. 1362 of 12/9/76 N.
T.

Letter Number

dated the

from the District Engineer of

The Chief Engineer does not approve of the manner in which the proposed alteration and additions to the late forest office at Salem has been treated in para 1 of the Specification which accompanied the District Engineer's letter No 65 dated 3rd Aug 1876. Either in the Specification itself, or in the letter submitting it, there should be a detailed and intelligible statement of what the alterations are to consist of.

The Plan referred to (which gives no section of the entire building) is not good enough to supersede the necessity for a full specification.

The documents are returned for amendment.
