*Proceedings of the Madras Government, Public Works Department,*

No. 436 Read the following letter from W. A. GOODCHAP, Esq, District Engineer, Kurnool, to Major-General G W WALKER, R E, Chief Engineer, Public Works Department, dated Kurnool, 15th September 1876, No. 63 :—

I HAVE the honor to report that I have received information from different officers of the distressed condition of the laboring class in the district, especially in the Markapur and portions of the Covilguntla and Pattikonda taluqs, owing to the failure of the south-west monsoon, and urging the necessity of starting famine relief works at once The Collector is now making a tour round the district, and the Assistant Collector who has asked me to employ the poor on the Rampur pass road is at Covilguntla, and he wishes to provide for 600 coolies who are said to be surrounding his camp for work As there is a balance of about Rupees 4,000 on the Rampur pass road from new work and repair grants of this year, I have instructed the Nandial Range Officer to make arrangements to employ as many coolies as possible on that road, push on the work, and make payments weekly

2 As the emergent work on the Cumbum tank channels absorbs a portion of the staff of the district, and I have no one to put in charge of famine relief works, I beg to recommend that V Kothandapani Moodelliar, 1st Grade Overseer, be promoted to Assistant Supervisor, and appointed extra officer, as a temporary measure, and in lieu of him one good Overseer be sent to take charge of the Nandial taluq
