MADRAS RECORD OFFICE

Government of Madras

Public ~~Works~~ DEPARTMENT

G.O. No. / ~~B.P. No.~~	2574	Press / ~~Mis.~~
Dated	27-9-1956.	

Not to be folded or roughly handled

Read the following papers —

No 183-W.

No 443. *Note by the Chief Engineer for Irrigation.*

THE sections of the Strivigunturn Anicut system are two, viz. —

North Main Channel (L B.)
South do. (R B)

The sub-sections are the several channels and tanks connected with them in each section.

2 Before finally adopting the arrangements as drawn up by the District Engineer, it may be desirable to see whether the Revenue statements can be prepared for them in the detail shown. If not, some modification in the way of clubbing may be necessary In Proceedings, Madras Government, 1st October 1875, No 2,831, is given an abstract of the revised estimates showing the names and description of all the works of the system, and these works will be formed into sub-sections for the convenient exhibition of areas of irrigation and revenue year by year, as also for the record of expenditure

3 The statement dated 14th June 1876, received from the District Engineer, Tinnevelly, is submitted.

OOTACAMUND, 8*th September* 1876.

(Signed) JOHN MULLINS, Lt-Col, R E,
Chief Engineer for Irrigation

To the Secretary to Government, Public Works Department

No 443-A From Captain L CONWAY-GORDON, R E, Examiner of Public Works Accounts, to Major-General G. W WALKER, R E, Secretary to Government, Public Works Department, dated Fort St George, 29th August 1876, No 192 W.

I HAVE the honor to acknowledge the receipt of G O, No. 1,971, dated 2nd August 1876, and with reference to paragraphs 1 and 3 of the Note of the Chief Engineer for Irrigation printed in those Proceedings, I beg to point out that I have received no information regarding the sections and sub-sections alluded to by the Chief Engineer.

2 The Chief Engineer for Irrigation mentions these sections as something corresponding to the canals in Northern India It would seem therefore that these sub-divisions should receive some recognition in the classification of the outlay connected with the Strivigunturn Anicut system, but this of course cannot be arranged until the sub-divisions are communicated to me.

No 444 ORDER THEREON, 27th September 1876, No. 2,574

IRRIGATION, No 42

ORDERED that the Note by the Chief Engineer for Irrigation containing an explanation of the reason for the postponement of a final settlement of the sub-sections of the Strivigunturn Anicut system be communicated to the Examiner of Public Works Accounts.

Proceedings of the Madras Government, Public Works Department,
27th September 1876. *No* 2,574

2 A copy of the provisional list of sub-sections, as drawn up by the District Engineer, should be sent to the Examiner by the Chief Engineer for Irrigation

(True Extract.)

To

The Secretary to Government,
Public Works Department.

FORT SAINT GEORGE, 29th August 1876

Sir,

I have the honor to acknowledge the receipt of Government order No. 1791 dated 2 August 1876, and with reference to paras 1 and 2 of the remarks of the Chief Engineer for Irrigation printed in those Proceedings, I beg to point out that I have received no information regarding the Sections and Sub-sections alluded to by the Chief Engineer.

2. The Chief Engineer for Irrigation mentions these Sections as something corresponding to the Canals in Northern India. It would seem therefore that these Sub-divisions should receive some

recognition

recognition in the classification of the outlay connected with the Straithbutam Sewerage system but this course cannot be arranged until the sub-divisions are communicated to me.—

I have the honor to be,

Sir,

Your most Obedient Servant.

L. Murray-Gordon.

Note by the Chief Engineer for Irrigation

The Sections of the Sirvaigumtum anicut system are two viz

North main channel - (L.B)

South do (R.B)

The subsections are the several channels and tanks connected with them in each section.

2. Before finally adopting the arrangements as drawn up by the District Engineer it may be desirable to see whether the Revenue statements can be prepared for them in the detail shown. If not some modification in the way of clubbing may be necessary -

In P.W.G. 1st October 1875, No. 2831, is given an abstract of the revised estimates showing the names and description of all the works of the system and these works will be formed into subsections

for the convenient exhibition of
areas of irrigation and revenues
year by year, as also for the
receipt of expenditure.
