Proceedings of the Madras Government, Public Works Department,
27th September 1876. *No.* 2,594.

No 479. Read the following letter from L R BURROWS, Esq , Acting President of the Madras Municipal Commission, to the Hon W HUDLESTON, Chief Secretary to Government, dated Madras, 21st September 1876, No. 1 D —

I HAVE the honor to forward, for the information of His Grace the Governor in Council, a copy of the Proceedings of the Drainage Committee, dated the 16th instant, and, with reference to paragraph 2, to request that Government will be pleased to cause the Committee to be informed of the intentions of Government with respect to the improvement of the navigation of the canals to the north and south of Madras

Proceedings of the Drainage Committee and the Gentlemen associated therewith, dated 16th September 1876

PRESENT

Mr L. R BURROWS, *Acting President, in the Chair.*

The Hon H S CUNNINGHAM	Captain J H TAYLOR.
„ J G COLEMAN	Mr J P NICHOLAS
Mr W. ROBERTSON	The Very Rev J COLGAN
„ V. KRISTNAMA CHARRIAR.	Dr W E DHANACOTTI RAJOO

1 The Committee are generally of opinion that the sewage, the sweepings, and the night soil should be removed to a sufficient distance from the city by means of the railways and canals if they are available, and that inquiries should be made with the view of ascertaining how the above matters can be disposed of most profitably to the Municipality

2 That the President be requested to ask Government to inform the Committee whether it is their intention to put the canals into such a condition, that the Committee may rely upon their being navigable all the year round

3 That the Agents of the Madras and South Indian Railways be asked whether they would have any objection to enter into arrangements for the removal of the town refuse, and to indicate the terms which they would be disposed to accept.

4 That the President be requested to write to the Engineers of the Madras and South Indian Railways, asking them to indicate any localities in the neighbourhood of their respective lines where the town refuse could be stored and made available for agriculture The most desirable localities are those which have a porous soil and natural drainage

5 That Major Stewart and Mr Deputy Collector Venkatasiah be requested to indicate any suitable localities which they may be acquainted with near the canals or lines of railway which might be used as depôts for the town refuse

6 That all Proceedings of this Committee be printed

(Signed) L R BURROWS,
Chairman.

No. 480. ORDER THEREON, 27th September 1876, No. 2,594.

CIVIL WORKS, No 33.

THE President of the Madras Municipal Commission will have learnt from G O, No 1,992, dated 3rd August 1876, the intentions of Government so far as they have been developed in respect to the improvement of the navigation of the Northern and Southern Canals.
