Public Works DEPARTMENT

G.O. No.	2864	Press
B.P. No.		Mis.
Dated	3 - 10	1876
		-195-

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
3rd October 1876. No. 2,664.*

No. 42. Read the following letter from J. O'SHAUGHNESSY, Esq., District Engineer, Nellore, to Major-General G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Nellore, 17th September 1876, No. 101:—

I HAVE the honor to report the arrangements that have been made for the accommodation of the offices referred to in paragraph 2 of G.O., dated the 5th June 1876, No. 1,393.

2. A suitable building has been hired in the town of Nellore, at a monthly rent of Rupees 15, for the accommodation of the Southern Range office. This building was occupied on the 27th June, and the charge for rent commences from that date.

3. A suitable building for the accommodation of the Central Range office cannot be procured within the Range, a building has, therefore, been hired in Nellore for this office, also at a monthly rent of Rupees 15. The charge for rent in this case commences from the 1st July last.

4. The building specially erected some years ago for the District Engineer's office, having by the removal of the above offices become available from the 1st July for its original purpose, the charge of Rupees 20 per month for the accommodation

* *Vide* G.O., No. 959, of 27th March 1873. provided* by the District Engineer for his office ceased on that date.

5. The arrangements reported above are the best that could be made, and I request they may be sanctioned at an early date.

6. In regard to the office of the Central Range, so long as that Range is comprised of the taluqs which belong to it at present, the inconvenience of having the head-quarter's office in Nellore is not so great as might be supposed. It would, however, be certainly better to have the Range office somewhere in the Range; but nothing can be done in this direction until a site is selected and funds for the construction of an office are sanctioned.

7. I should have decided upon a site for this office, and recommended some alterations in the limits of the Range but for rumours of impending disruption of the present organization of the department, and until something is known of the truth or otherwise of these rumours it will be as well perhaps to let matters remain as they are.

No. 43. ORDER THEREON, 3rd October 1876, No. 2,664.

ESTABLISHMENT, No. 6-A.

THE arrangements reported in this letter are approved temporarily. But the District Engineer, Nellore, will report at once in regard to the permanent head-quarters of the Central Range Officer.

(True Extract.)

Colonel,
Offg. Under Secy. to Govt., P.W.D.

To the District Engineer, Nellore.

No 101

District Engineer's Office,
Bellare 17th September 1876.

From,

A. C. Ramphursey Esquire

District Engineer of
Bellare.

To,

Major-General C. W. Walker, C.E.

Secretary to Government

M. D.

Fort St. George

Sir,

I have the honor to report the
arrangements that have been made
for the accommodation of the Offices
referred to in para 2 of L.O. dated the
5th June 1876, No. 1393.

1. A suitable building has been hired
in the town of Bellare at a monthly rent
of Rs. 15 for the accommodation of the
Southern Range Office. This building
was occupied on the 27th June and the
charge for rent commenced from that date.

3. A suitable building for the accom-
modation of the Central Range Office

cannot be procured within the Gange,
a building has therefore been hired
in a place, for this Office also at a
monthly rent of Rs 15. The charge for rent
in this case commences from the 1st July last.

4. The building specially erected some years
ago for the District Engineer's Office, having
by the removal of the above Officers become
available from the 1st July for its original
purpose the charge of Rs 20 per month
for the accommodation provided by
the District Engineer for his Office
ceased on that date.

Vice 96
959 of 72
1873

5. The arrangements reported above are
the best that could be made and I
request they may be sanctioned at an
early date.

6. As regards the site in the Gange,
as long as that Gange is confined
of the Gange, the head of the Gange
the head of the Gange is cut to give it a new

It would however be certainly
better to have the Range Office some-
where in the Gange, but nothing can
be done in this direction until a site
is selected and funds for the
construction of an Office are sanctioned.
7. I should have decided upon
a site for this Office and recommended
some alterations in the limits of the
Gange, but for rumours of impending
dissolution of the present organization
of the Department, and until something
is known of the truth or otherwise of
these rumours, it will be as well
perhaps to let matters remain as they
are.

I have the honor to be,
Sir,

Your Most Obedient Servant
W. W. W. W.
District Engineer.
