5. The delay in the submission of these lists has been caused by the several changes required to be made in the original proposals and by the necessity for frequent reference to the districts to obtain all the requisite information for their preparation, and in some cases by the delay of District Engineers in furnishing plans and estimates.

for works to be carried out by Departmental  
Agency in 1876/77. List C shows allotment  
for Repairs and D revised allotment for  
each District under head "Construction".

5. The delay in the submission of these  
lists

lists, has been caused by the several  
changes required to be made in the original  
proposals and by the necessity of frequent  
reference to the Districts to obtain all the  
requisite information for their preparation  
and in some cases by the delay of District  
Engineers in furnishing plans and estimates.
