*Proceedings of the Madras Government, Public Works Department,
31st January 1876.*

Read the following papers —

No. 578. Proceedings of the Madras Government in the Military Department,
dated 17th November 1875, No 5,613

ABSTRACT—Approving an estimate for constructing three new sheds, and
converting another, for the storage of dry earth near the latrines of the European
Infantry Barracks at Cannanore

From the District Engineer, Malabar, dated 15th December 1875, No. 144.

Proceedings of the Madras Government in the Military Department, dated 14th
January 1876, No 273.

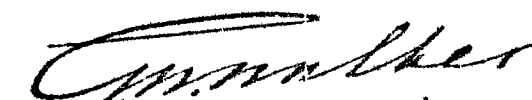

ABSTRACT—Approving estimate and plans for constructing certain covered
passages for the European Infantry Barracks at Cannanore

No 579. ORDER THEREON, 31st January 1876, No. 274.

MILITARY WORKS, No 13.

It is observed that the plans and
estimates approved in the Military
Department orders above quoted are
portions of one and the same project, which have been improperly submitted for
separate sanction, against the Standing Orders of the department, (paragraphs 11 and
14, Chapter V., of the Public Works Code,) without the slightest intimation of their
relation to one another. It is also remarked that instead of the approximate estimates,
which alone are allowed to be prepared without the approval of Government, under
paragraph 76, Chapter V., of the Public Works Code, plans and estimates in full detail
have been prepared and submitted by the District Engineer of Malabar. All the
papers will be returned to him for disposal under the instructions of the Chief Engineer.

Barracks and Buildings.

Read the following letter :—

No 271. From Brigadier-General A HOWLETT, c b, Quartermaster-General, to Colonel A C SILVER, Secretary to Government, Military Department; dated Fort St George, 12th January 1876, No 247.

Enclosures 8 (4 Plans)

Amounting to Rupees 2,320 for constructing four covered passages from the barracks to the latrines, and one from the barracks to the drying rooms, of the European Infantry barracks at Cannanore

The Military and Medical authorities consider that these improvements, whilst not interfering in any way with the ventilation of the barracks, are much required, especially during the monsoon months, when the men are exposed to the heavy rains whilst crossing the intervening space between the barracks and the out-buildings

The Commander-in-Chief having approved the approximate estimate and plans marginally noted, I am directed by His Excellency to submit them for the consideration and orders of Government

2 If approved by Government, it is requested that the papers may be forwarded to the Department Public Works for disposal
