*Proceedings of the Madras Government, Public Works Department,
14th October 1876. No. 2,756.*

Read the following papers:—

No. 210. From Colonel F. J. MOBERLY, R.E., Superintending Engineer, Chingleput, to Major-General G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated 4th October 1876, No. 2,335.

WITH reference to G.O., No. 321, dated 5th February 1876, I have the honor to forward, for the sanction of Government, an estimate, amounting to Rs. 465, for the immediate and emergent requirements of the Nullur Tank.

No. 210 W.

No. 210-A. *Note by the Chief Engineer for Irrigation.*

THE estimate of Rupees 465 submitted by the Superintending Engineer, Chingleput, is in lieu of estimates, amounting to Rupees 1,155, which were reviewed in Proceedings of the Madras Government, 11th October 1875, No. 2,903, and has been prepared with reference to G.O., No. 321, of the 5th February 1876.

2. As the catchment basin is reported to be only one square mile, it is not surprising that against an ayacut area of 133 acres under the tank only about 76 acres are irrigated on the average.

3. The estimate is recommended for sanction.

OOTACAMUND, (Signed) JOHN MULLINS, Lt.-Col., R.E.,
