Public Works DEPARTMENT

G.O. No. 2878-79 Press
B.P.—No. Mis.—

Dated 27 — 10 — 1876 —195—.

Not to be folded or roughly handled

No. 441. Read the following letter from Major J. O. HASTED, R.E., Superintending Engineer, Kistna, to Lieutenant-Colonel J. MULLINS, R.E., Chief Engineer for Irrigation, dated Masulipatam, 1st September 1876, No. 68:—

I HAVE the honor to forward herewith plans and estimates for wooden punts with iron ribs, for the construction of which Rs. 10,000 were allotted in G.O., No. 162, dated 22nd January 1876, under Irrigation Extraordinary of 1875-76.

1 Plan.
2 Detailed and Abstract Estimates.
2 General Abstract Estimates.

2. I have been waiting for the preliminary issue of the Irrigation Budget to be confirmed before addressing you on the subject of the punts to be constructed, and have now been informed (although the revised Budget has not been yet received) that the Budget provision under "Irrigation Ordinary," "Navigation," has been reduced to Rupees 17,600; nothing apparently was asked for under Irrigation Extraordinary, and Rupees 1,000 are required to complete the two large and two small punts (as per enclosed plan) commenced last year under this head; I have the honor to request therefore that this amount may be transferred from the Budget grant under Irrigation Ordinary.

3. The grant thus reduced to Rupees 6,600 will have to provide for the funds required for construction of District Engineer's boat sanctioned in G.O., No. 446, dated 17th February 1876, and a balance of only Rupees 5,400 will remain. I propose to devote this sum with your approval to the construction of two more punts, one large and one small, according to enclosed plan.

No. 442. ORDER THEREON, 27th October 1876, No. 2,878.

IRRIGATION, No. 49.
Account.

IT is observed that there being no lump sum sanctions of the Government of India for Tools and Plant, Kistna Delta, the sanction given in G.O., No. 162, of the 22nd January 1876, for the construction of six punts, was not in accordance with the rules; but as a very large addition to the floating plant of the Kistna Delta will be required for carrying out the completion estimates, with which it is expected a commencement will be made in 1877-78, and in which provision has been made for Tools and Plant, and as the construction of punts takes a long time, the Superintending Engineer, Kistna, is authorized to proceed with the building of the six punts referred to from the provision in the Budget, final issue, of Rupees 17,600 under Capital

Proceedings of the Madras Government, Public Works Department, 27th October 1876. No. 2,879.

Sir as has been yet provided) that the Budget
Provision under "Irrigation Ordinary"
"Irrigation" has been reduced by the Superintendent
nothing apparently was asked for under Irrigation
Extraordinary, and 1000 Rupees are required to
complete three Large and 2 Small Tanks (as
per enclosed plan) commenced last year
under this Head; I have the honor to
request therefore that this amount may
be transferred from the Budget Grant under
Irrigation Ordinary.

3 The Grant there reduced to Rs 6000 will
I have to provide for the sums required for
completion of Public Buildings sanctioned
in G.O. No 446 dated 17th February 1857 and a
balance of only Rupees 5400 will remain. I
propose to devote this sum with your approval
to the completion of 2 more Tanks, 1 Large
and 1 Small according to annexed plan

I have &c &c
