Public Works DEPARTMENT

G.O. No.	208	(2)	Press
B.P. No.			Mis. —
Dated	2. 2.	18	76.

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
2nd February 1876.*

No. 15. Read the following letter from Major H. R. MEAD, R.E., District Engineer, South Arcot, to Major-General G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Camp at Cuddalore, 26th January 1876, No 199 —

IN G O, No 1,999, dated 24th July 1874, the District Engineer of South Arcot was directed to ascertain how far the arrangement proposed and sanctioned for Lower Coleroon Anicut for a fish ladder, or rather arrangement of sluice to allow the passage of Hilsa fish across the anicut, would be suited to the circumstances of the Vellaur anicut at Shatiatope

2 I have the honor to report that, on reference to the District Engineer of Tanjore, I find that this arrangement has not yet been completed at the Lower Anicut, and also it is doubtful whether the arrangement will succeed. Government have directed in G O, No 28, dated 5th January 1876, that it be carried out and the results be reported after a season's trial.

3 I would propose, therefore, that nothing should be done at present to the Shatiatope Anicut, but that we should wait until the result of the experiment at the Lower Coleroon Anicut is known.

No. 16. ORDER THEREON, 2nd February 1876, No. 288.

IRRIGATION, No. 4.

ORDERED to be recorded.

(True Extract)

(Signed) G. W. WALKER, Major-General, R.E.,
Secretary to Government.

Enclosures

Sir,

In G.O. No 1999 dated
24th July 1874 the District
Engineer of South Arcot
was directed to ascertain how
far the arrangement proposed
and sanctioned for lowering
leakroom Amuck for a fish
ladder or rather arrangement
of sluice to allow the passage
of Killa fish across the Am-
uck would be suited to the
circumstances of the Vallant
Amuck at Shatope.

2. I have the honor to report
that on reference to the District
Engineer of San Jose, I find
that this arrangement has not yet
been completed at the Lower
Anicut and also it is doubtful
whether the arrangement will
succeed; Government having
directed in G.O. No. 2 dated 5th
January 1876 that it be carried
out and the results be reported
after a season's trial.

3. I would propose therefore
that nothing should be done
at present to the Statistope
Anicut but that we should
wait until the result of the
experiment at the Lower
Coleroon. Anicut is known
I

I have the honor to be
Sir
Your most obedt Servt
M. M. M. M. M.
District Engineer
