Dated 23rd Sept
Received 23rd Sept 1876.

Abstract Estimate amounting to Rupees 545

for Constructing a Well
near the Telegraph Office
at Bilaspur side to D
1st 1876 23rd Sept 1876.

115
Specification Report to Accompany the
Estimate for Constructing a Well near the
Telegraph Office Compound.

Amount of Estimate Rs 545

The Estimate provides for a stone well at the
Spot marked 'A' in the Site plan, between the
Telegraph Office Compound and Prince Pittab.
From the Section of the contiguous Well in the
Telegraph Office Compound, and from a boring
made at the proposed site of the new Well, it is
calculated, that gravelly soil will have to be
excavated to a depth of 5 yards, and 1/2 to be
blasted for a further depth of 7 yds.

In excavating the Well, the gravel exca-
vation will be made in steps 3' deep and 1/4 ft
wide, to allow room to work and to prevent
accidents, the lower steps, namely that on the
surface of the rocks will be 3' wide to allow
of the workmen being commenced and to be
properly banked with well tamped gravel.
The rocks will be blasted in the usual man-
ner and the debris raised to the surface by
being passed up ladders or hoisted up as may
be found most convenient. The four sides of
