*Proceedings of the Madras Government, Public Works Department,
10th November 1876. No. 3,015.*

No. 175. Read the following endorsement of the Consulting Engineer for Railways,
dated Madras, 17th October 1876, No. 497:—

From W. ELDER, Esq., Acting Consulting Physician, to R. B. ELWIN, Esq., Agent
and Manager of the Madras Railway Company, dated Royapooram, 13th
October 1876, No. 307.

HAVING completed my second half-yearly inspection of the South-west Line,
including the Bangalore and Mettapolliem branches, yesterday, I have much pleasure in
reporting favorably on the sanitary condition of the stations generally.

2. I think it worthy of remark that the Station Masters at the smaller stations
appear to be taking more interest in the cleanliness of the latrines and the enclosures of
the stations than formerly.

3. With reference to paragraph 2 in my last Inspection Report, dated 2nd March,
I have the pleasure to state that the drainage of the porters' lines at Bangalore has
been much improved. The alterations at the porters' and clerks' lines at Jollarpett
are being proceeded with.

4. Last week there were one or two cases of cholera at Jollarpett and Malloor
stations, but the line is at present free from the disease. Apothecary McCoy reports
that there are some sporadic cases at present in the villages adjacent to the stations of
his beat between Arconum and Codoor.

5. I found the journals, records, and case-books of the Apothecaries carefully kept,
and up to date.

SUBMITTED for the information of Government.

2. The report alluded to by Dr. Elder in paragraph 3 is embodied in the Proceed-
ings of Government, No. 869, dated 3rd April 1876.

(Signed) J. H. M. SHAW-STEWART, Lieut.-Col., R.E.,
Consulting Engineer for Railways.
