*Proceedings of the Madras Government, Public Works Department,
13th November 1876. No. 3,034.*

Read the following papers:—

No. 211. Proceedings of the Madras Government in the Financial Department,
dated 28th September 1876, No. 1,738.

ABSTRACT.—*Municipal—Reports.*—The annual report of the Kurnool Municipality
for 1875-76, reviewed.

—
No. 232 W.

No. 211-A. NOTE BY THE CHIEF ENGINEER FOR IRRIGATION.

Water-supply of Kurnool.

THE Madras Irrigation and Canal Company do, it is believed, arrange to store a large quantity of water in the canal in order to secure, as far as possible, a supply to the town after the head sluice of the Main Canal is closed. Nothing more can, it is thought, be done by the Company, and it would seem to be the business of the Municipality to provide such means of storage as the circumstances of the water-supply in the hot weather show to be necessary.

OOTACAMUND,
20th October 1876.

(Signed) JOHN MULLINS, Lt.-Col., R.E.,
Chief Engineer for Irrigation.

To the Secretary to Government, Public Works Department.

No. 212. ORDER THEREON, 13th November 1876, No. 3,034.

IRRIGATION, No. 14.

THE subject will be referred for the consideration of the Chief Engineer and Manager, Madras Irrigation and Canal

Company, who will be requested to report—

- 1st.—What the present arrangements are for securing a supply to the town after the head sluices are closed?
- 2nd.—What quantity of water (approximately) can be stored in the canal itself, and for what time this quantity may be expected to supply the town?
- 3rd.—For what period annually, or at longer intervals, it will probably be necessary to close the canal above Kurnool for repairs?

(True Extract.)

Major-General, R.E.,
Secretary to Government.

To the Chief Engineer and Manager, Madras Irrigation and Canal Company.

„ Chief Engineer for Irrigation.
