RAILWAY, No. 53.

It is observed that the Consulting Engineer for Railways is usually supplied with twenty copies of documents of this description, and that unless instructions to the contrary are received before the papers pass through the Press no arrangements can be made for striking off additional copies. In the case in point the proofs were sent to the Consulting Engineer's office for revision, and in reply to an inquiry from the Secretariat as to the number of copies required, it was stated that the usual number was wanted. Accordingly twenty-one* copies of the Report were furnished with G.O., No. 2,686, dated 5th October 1876, and, on a subsequent application,† fifteen additional copies were supplied. A further supply of six copies will now be made, but the expense of reprinting a Report of this character, which will hereafter be embodied in the General Administration Report of the Presidency, cannot be sanctioned.

* Being one in excess.

† No. 502, dated 20th October 1876.

2. Application for additional copies of printed papers should in future be made at the time of submission of the papers themselves in manuscript.
