Read the following letters:—

No. 395. From Major P. MONTGOMERIE, R.E., Officiating District Engineer, Presidency, to Major-General G. W. WALKER, R.E., Chief Engineer, Public Works Department, dated Fort St. George, 23rd October 1876, No. 4,005.

With reference to G.O., No. 130-A, dated 17th June 1876, I have the honor to submit, for sanction and allotment of funds, an estimate with specification report, amounting to Rupees 670, for erecting four temporary sheds at the General Hospital, which have been approved of by the Surgeon-General, Indian Medical Department.

2. The work was undertaken on emergency, and is now completed.

No. 395-A. From Major H. M. VIBART, R.E., Officiating District Engineer, Presidency, to Colonel W. FAREWELL, Deputy Chief Engineer, Public Works Department, dated Fort St. George, 9th November 1876, No. 4,281.

With reference to your memorandum, No. 1,192-T, dated 26th October 1876, I have the honor to point out that the Surgeon-General, Indian Medical Department, at first stated that the sheds are to be

similar to the one built recently for Rupees 40. This shed was built on an old basement and flooring, having a road leading to it for which nothing was paid. Now it would be impossible to build a shed similar to this for the same amount, when new foundations, basement, flooring, and a road are required. The road and flooring were made at the request of the Secretary to Surgeon-General, Indian Medical Department.

2. A verandah (a convenience that the pattern shed has not got) was added to each shed after they were completed at the request of a Committee assembled by order of the Surgeon-General, Indian Medical Department.

3. From the above it will be observed that the sheds in question were built under different circumstances; hence the additional cost.

4. The estimate was already approved and countersigned by the Surgeon-General, Indian Medical Department, as will be seen on the face of the estimate, and it is herewith resubmitted together with the specification report.
