such a dangerous state that I have ordered it to
be immediately pulled down to prevent any accidents
happening and in order to protect the main walls
from the coming rains I have directed to put up
a thatched Verandah as a temporary measure.

I trust Government will approve of
the action I have taken in the matter.

Sir,

In reply to your Memorandum
N^o 1083 of the 9th Instant I have the honor
to inform you that I cannot discover
when the terraced Verandah of the
Collector's Fatchery was built. I left fancy
it was built at the same time as the Fatchery
which was a long time ago. The state of
this building has I believe been repeatedly
brought to notice, as also all the public
officers at this station.

2. As regards its reconstruction
I beg to state that in my opinion it would
be a sheer waste of money to put a new
Verandah on to an old building
which cannot itself last much
longer.
