Read the following papers:—

No. 510. From Captain L. CONWAY-GORDON, R.E., Examiner of Public Works Accounts, to Major-General G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Fort St. George, 3rd November 1876, No. 284 W.

I HAVE the honor to acknowledge the receipt of G.O., No. 2,604, dated 27th October 1876, sanctioning an estimate for a waste weir for the Nellore tank, and I beg to be informed under what *main head* of the prescribed classification this work falls, and with what canal it is connected.

2. As it now appears that the work is connected with a project which the estimated cost exceeds two lakhs of Rupees, the estimate appears to require the sanction of the Government of India.

3. It will also be necessary to obtain the sanction of the Government of India to the transfer of the Budget Appropriation, Rupees 10,000, from 'Ordinary Agricultural, Original Works' to 'Capital Ordinary'; and also to make provision under 'Capital Ordinary' to cover the expenditure in previous years (Rupees 2,258), which must now be transferred from the debit of 'Ordinary Agricultural' to the debit of 'Capital Ordinary.'

No. 251 W.

No. 510-A. *Note by Chief Engineer for Irrigation.*

It appears to be impracticable to suggest any main head under the classification prescribed by the Government of India for the Nellore tank and its works. That tank is situated above the Pennair anicut channels and irrigates conjointly with them certain lands. The reservoir has consequently for many years been treated as part of the Pennair anicut system and cannot well be separated therefrom.

FORT ST. GEORGE,
16th November 1876.
