Read the following papers:—

No. 552 From T. D. HARRIS, Esq., District Engineer, Ganjam, to Major-General G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Camp at Berhampore, 13th August 1876, No. 48

I HAVE the honor to submit, herewith, copies of correspondence which took place between this and the Police Superintendent's Office regarding the possession of the room marked in the Plan A by the Police which comes into the proposed Post Office at Itchapore. It will be seen from the specification which accompanies that it is clearly defined how the accommodation is provided for in the left wing of the Subsidiary Jail at Itchapore, and that both rooms marked A and B came into it, and indeed it will be inconvenient to alter it as may be seen from the position of the out-houses and enclosing wall on plan, and I may add that most of the work is already done, but I have suspended operations pending instructions, if the room A is to be given up to the Police a fresh estimate will be required for an additional room for the Postmaster, and the arrangement of the proposed enclosing wall must also be altered to suit the screening in of the out-houses to be used by the Postmaster and family

From Captain W. J. PICKANCE, Acting Superintendent of Police, Ganjam District, to T. D. HARRIS, Esq., District Engineer, Ganjam, dated Chatterpore, 25th July 1876, No. 633

WITH reference to the correspondence as per margin (to be returned), I have the honor to inform you that the Inspector of Police was acting under my orders

Letter from the Overseer, Public Works Department, to the Inspector of Police, Itchapore, dated 23rd July 1876, No. 23, and its enclosure

2 I append extract from a letter to my address from Major Smalley, and also a plan in original (to be returned), from which you will see that, as arranged by Major Smalley, we retain possession of the room marked as the record-room, and this arrangement has the sanction of the Inspector-General of Police

3 An error was apparently been committed by your department in submitting an incorrect plan for the sanction of Government, and I would suggest its being put right. The room in question is required for Police purposes, and cannot be given up

From W. SOOBBAROYDOO, Taluk Overseer, Public Works Department, to the Inspector of Police, Itchapore, dated 23rd July 1876, No. 23

From T. D HARRIS, Esq, District Engineer, Ganjam, to Captain W J PICKANCE, Superintendent of Police, Ganjam, dated Chatterpore, 28th July 1876, No 147

In reply to your letter, No 633, dated 25th instant, I have the honor to forward herewith the office copy of the plan submitted by Major Smalley and sanctioned by Government for the Post Office at Itchapore, and there appears no mistake about it, for, owing to the position of cook-house, &c, the room referred to by you comes into the Post Office, and in the specification is clearly stated so, and I expect the work has so far progressed that no alteration can be made in plan, in fact, owing to the position of the out-houses, if the Postmaster and family occupy the proposed building, the Police must, you will observe by the plan, be excluded from the room referred to in your's under reply Please return the plan at your earliest convenience as it will cause considerable loss and delay with the work besides, if the room is to be retained in the manner you suggest, it will necessitate a fresh plan and estimate which must go up to Government for approval

2 The sketch plan received with yours under reply is herewith returned.

From Captain W J PICKANCE, Acting Superintendent of Police, Ganjam, to T D HARRIS, Esq, District Engineer, Ganjam, dated Chatterpore, 3rd August 1876, No 673

I HAVE the honor to acknowledge the receipt of your letter, No 147, dated 28th ultimo, and plan (returned) The District Engineer's proposal for the Post Office at Itchapore which received the Inspector-General's sanction left the Police in possession of the record-room, and in his proposal which he submitted to Government gave it to the Postal Department, a proceeding which was bound to create confusion and uproar

2 The room is the only one the Police have for the custody of property, and they cannot surrender it I would suggest your applying to Government for sanction for an additional room for the Postmaster on the eastern side where there is ample room for its erection In the meantime I request you will instruct your officer in charge of the work not to interfere with the possession by the Police of the room in question

The plan received with the above quoted
letter is returned to the Mr. Engrs. with the
following instructions in accordance
with which, Mr. Harris is requested to
prepare and submit as early as possible,
a fresh plan and estimate.

- I. The portions marked A & B on the
plan to be used as a Postmaster's Quarters.
- II. More light and air to be admitted into
the Constable's room by inversion of openings
as pointed out in pencil marked a-a-a.
- III. Enclosed Verandah in rear of Constable's
room to be built for the Police as pencilled
on the plan.

FOR ORDERS.

Specification

The work consists of altering the left wing of the subsidiary jail into a Post office. The front room forms the office $28' \times 16'$ and behind it are formed the Postmaster's quarters consisting of 2 rooms each $16' \times 13 \frac{1}{4}'$. 3 new doors are placed in them to connect with each other and with the court yard. A box of letters is to be fixed in the office. The compound is to be walled off by cross walls to form a court yard for the Postmaster with a gate to communicate with the outside.

The cook rooms and latrines now used by the prisoners are to be given over to the Postmaster and similar accommodation is to be provided for the prisoners on the opposite side of the compound which is allowed for in this estimate. The old doors and windows are to be thoroughly

thoroughly repaired, the tiles of the roof
turned the floor polished up and the
walls whitewashed inside & outside.

The room is the only one the Police
have for the custody of property and
they cannot surrender it. I would suggest
you applying to Government for sanction
for an additional room for the Pooh
cluster on the Eastern side where there
is ample room for its erection. In the
meantime I request you will instruct

District Engineer's office
Camp Belgaum
20th September 1875

W. H. Smith
(District Engineer)
Belgaum

Specification

The work consists of altering the left wing of the subsidiary jail at Belgaum into a post office.

The first room (28 x 16) forms the post office and the two rooms each (16 x 13 1/4) the post masters quarters. There will be a cross wall separating the verandah. An enclosed verandah (28 x 7 1/2) will be added at the rear of the constables room. There will be three new doors in the Deputy Post Masters Rooms to connect with each other and with the court yard and the one leading into the verandah will be converted into a window. The door of the constables room will be built up while three 5 feet archways will be opened at the front and a door at the rear. The windows on each side of which will be built up too. The enclosed verandah will have three windows placed at the rear. A box for letters will be fixed in the office. The compound will be walled off by cross walls to form a court yard for the Post Master, with a gate to communicate with the outside. The cook room & latrines now used by the prisoners will be given over to the Post Master and similar accommodations will be provided for the prisoners on the opposite side of the compound wall.

The removal of the masonry necessary
for the new door ways &c will be
carefully done allowance being made for
in the estimate. The old doors and
windows are to be thoroughly repaired
the tiles of the roof restored, the floor
polished and the walls white washed
inside and outside.
