No 264 W.

MEMORANDUM

ORDINARY Agricultural Works are of several distinct descriptions and the corresponding sub-divisions not having been definitely laid down there are differences of practice which it may be desirable to obviate. The sub-divisions of such works have been called "objects of works," but it has been suggested by the Deputy Examiner of Public Works Accounts for Irrigation that they may conveniently be termed main heads, and it is proposed therefore that this more simple term be adopted and that the following main heads be prescribed —

MAIN HEADS

Ordinary Agricultural.

1. Irrigation
2. River conservancy.
3. River embankments.
4. Drainage
5. Miscellaneous

2 Funds should be budgetted for, and all subsequent operations carried out under, and with reference to, these main heads
