*Proceedings of the Madras Government, Public Works Department,
1st December 1876. No 3,250.*

No. 40. Read the following endorsement of the Chief Secretary to Government, dated Fort St. George, 21st November 1876, No 1,913:—

From Rev. O. DENE, B A, Principal and Secretary, Lawrence Asylum, to the Hon W. HUDLESTON, Chief Secretary to Government, dated Ootacamund, 18th November 1876, No 2,130.

I HAVE the honor to submit a requisition for lime-stone for farming purposes, in connection with the experimental farm at Lovedale.

2. The land of the farm in question is mainly composed of drained marsh lands, deep peaty soils and rich, dry densely mouldy loams. All agricultural authorities agree as to the necessity for dressing such soils with frequent and large quantities of lime.

I beg also to invite attention to Mr. Robertson's Report on the Nilgiri Hills, wherein he strongly recommends a liberal use of lime.

3. The lime-stone in question has been lying on the Asylum premises for many years and has not, I believe, been utilized by the Public Works Department for any of the works undertaken by that Department at Ootacamund or elsewhere on the Hills. The quantity of lime-stone in stock is estimated at about 16,000 parahs.

4. I venture therefore to hope that His Grace the Governor in Council may be pleased to direct the transfer of the whole or a portion of the lime-stone now lying useless here for the purpose mentioned above.

TRANSFERRED to the Public Works Department for disposal.

(Signed) W. HUDLESTON,
Chief Secretary.

No. 41. ORDER THEREON, 1st December 1876, No. 3,250.

ACCOUNT, No 4.

THERE is no objection to the transfer to the Educational Department for use on agricultural operations of the whole or any portion of the lime-stone at the site of the Lawrence Asylum Works, credit being given to the Public Works Department under Imperial, Military, at the rate of Rs. 2½ per parah used.
