No 186 . Read the following letter from F. N THOROWGOOD, Esq, Superintendent, Madras Harbour Works, to Major-General G W WALKER, R E, Secretary to Government, Public Works Department, dated Madras, 21st November 1876, No 88 W —

Tracing of site of Godown

I HAVE the honor to ask for information on the following subject

2 In G O, No 2,986, dated 20th October 1875, the Superintendent of the Madras Harbour Works was instructed to erect a godown for the Marine Department in the place of one that will have to be removed, in order to carry out the concrete block platforms for the use of the Harbour Works

3 The site of this new godown for the Marine Department was arranged between myself and the Deputy Master Attendant. I afterwards applied to the Municipal Commission for leave to start building the godown on the site selected, and was referred to the Collector of Madras I obtained permission to build, but on a somewhat different site, and have now commenced to put in the foundations, but before carrying on the superstructure I am anxious to know whether I am at liberty to interfere in any way with the old rampart wall which runs at the west end of the Harbour Works concrete-mixing station.

4 The site given up to me by the Deputy Collector adjoins this rampart wall, and I have proposed for economy to use the wall as one side of the godown. It has since occurred to me that there may be objections against my interfering with this wall

5 I enclose herewith a copy of the tracing sent me from the office of the Deputy Collector of Madras which shows the spot selected.
