No. 429. Read the following endorsement of the Chief Engineer for Irrigation, dated 11th December 1876, No. 293 W :—

From J. H. LATHAM, Esq., Chief Engineer and Manager of the Madras Irrigation and Canal Company, to Lieutenant-Colonel J. MULLINS, R.E., Chief Engineer for Irrigation, dated Madras, 7th December 1876.

I HAVE the honor to ask the favor of your attention to G.O., No. 3,549, of 18th December last, sanctioning office staff, &c.

2. It was omitted to be stated in my statement, as laid before Government for sanction, that though the individual salaries were therein given so far as the appointments were occupied, the sanction of Government was asked for permission to make such changes in individual salaries as should prove desirable from time to time, provided that the total salaries of a class be not increased.

3. This omission was not from oversight, but customary, and has not resulted in any objection hitherto. The usual groups are Engineers and Surveyors, Overseers and Amins, Writers and Signallers, Bankers, Sluice-keepers, and Tapalrunners. It is unavoidable up-country to make what arrangements are possible with the men available. Thus when an Engineer is withdrawn the Surveyor's salary or allowance has been raised, or on the reduction of an office the salaries of those remaining have been advanced. Tapalmen on long runs have had more, and on short less, than the sanction, and that without objection, as it has been fully explained.

4. The Government Auditor informs me (his No. 303 of 27th ultimo) that the Examiner of Irrigation and Railway Accounts finds this irregular, and considers sanction of Government necessary. I therefore have the honor to ask you to request that sanction for alteration of salaries of individuals in groups of the same denomination, or having duties capable of mutually aiding each other, provided always that the total sanctioned monthly outlay be not exceeded on each staff. This it is necessary to have for past, present, and future practice, in order to bring the accounting into thorough order.

—

SUBMITTED for the consideration of Government.

2. The proposals of the Chief Engineer and Manager, Madras Irrigation and Canal Company, are, the undersigned considers, unobjectionable, if it be understood that alterations of salaries of members of the Engineer grade will, as heretofore, require the approval of Government.

(Signed) JOHN MULLINS, Lt.-Col., R.E.,
Chief Engineer for Irrigation.
