*Proceedings of the Madras Government, Public Works Department,
17th February 1876.*

No. 322. Read the following letter from J. D. GRANT, Esq, Officiating District Engineer, Tinnevely, to Major-General G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Palamcottah, 11th February 1876, No. 132 :—

With reference to the 2nd paragraph of G.O., No. 265, of 29th ultimo, in which it is remarked that after the light establishment at Muttum has been started a watchman will not be required, I have the honor to state that the watchman is intended for employment at Comorin, where there will be no light establishment, and that Muttum being 16 miles distance the necessity for a watchman will still exist.

2. Unless it is probable that a light-house will soon be built I would beg strongly to recommend that the timber, doors, and windows, &c., be sold.

No. 323. ORDER THEREON, 17th February 1876, No. 442.

ESTABLISHMENT, No. 22.

RECORDED.

2. The materials should be retained in anticipation of orders being issued for the erection of the light-house as an Imperial Work. Meanwhile the services of the watchman cannot, under the circumstances explained, be dispensed with.
