No. 330.

Read the following:—

No. 173.

Note by the Chief Engineer for Irrigation.

THE Superintending Engineer, Kistna, proposes to build a new boat for the District Engineer at a cost of Rs. 1,200

He shows that there is a balance to the credit of the
old boat of Rs. 804

And that it may be anticipated that the old boat will
sell for „ 300
— Rs. 1,104

The present boat was not new when purchased for the Kistna Delta, and it has been in use about seven years. It is recommended, therefore, that sanction should be given for the sale of the unserviceable boat and for the construction of a new boat. The ultimate loss, if any, on the old boat should be shown in all annual returns of the range boats as a diminution of the sum “available for reconstruction.”

2. It is doubtful whether there are any funds available under Tools and Plant, Capital, Ordinary, Navigation, the provision having for the current year been only Rupees 500. The District Engineer should never omit to report on ways and means, as without information on this point references involving expenditure cannot be fully disposed of.

3. The Police boats of the Godavery District may with advantage be considered in deciding on a design.

ORDER THEREON, 17th February 1876, No. 446.

IRRIGATION, No. 35.

Account.

THE sale of the range boat in use by the District Engineer, Kistna, and the construction of a new boat to take its place, at a cost not exceeding Rupees 1,200, are approved, and the work may be com-

menced if funds be available from the district grant for Tools and Plant, Capital, Ordinary; otherwise an application should be made for the amount required in the current year, when an appropriation from savings reported from other districts will be made.
