MADRAS RECORD OFFICE

Government of Madras

Public Works DEPARTMENT

G.O. No. 448 (2) Press
~~B.P. No.~~ ~~Mis.~~

Dated 17-2- 1876.

Not to be folded or roughly handled

No. 334. Read the following letter from W. S. FOSTER, Esq., Acting Collector of Kurnool, to Major-General G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Kurnool, 28th January 1876, No. 49 :—

With reference to G.O., No. 790, of the 20th March last, directing the early determination in communication with the Chief Engineer, Madras Irrigation and Canal Company, of the correct areas of cultivation under the canal and of the demands for water supplied in 1873-74, I have the honor to report that there is no difference in the net adjusted demands under the several heads in the Ramalkota and Nandikotkur taluqs, the slight difference in areas being due to defective calculation in the Company's accounts. The Chief Engineer has, it is reported by the Deputy Collector, consented to accept the areas as given in the Government accounts.

2. In regard to the remaining three taluqs of Nandial, Koilkuntla, and Sirwell, where there are differences both in the areas and adjusted demands under several heads, I have the honor to state that such differences appear only in a very few villages of the taluqs. A comparative statement showing the correct areas of cultivation under the canal and of the demands for water supplied in those villages, explaining in the column of remarks the discrepancies between the Company's and Government accounts, is submitted herewith.

3. It will be observed that the discrepancies are chiefly due to the amount charged for tank supply being excluded in the Government accounts, and partly to mistakes in the Company's accounts.

MADRAS IRRIGATION AND CANAL COMPANY.

Comparative Statement of Irrigation showing the Differences between the Government and Company's Accounts for the Season 1873-74 in Kurnool District.

(Signed) A. RAMACHENDRA ROW,
Deputy Collector.

NANDIAL,
16*th December* 1875.

Proceedings of the Madras Government, Public Works Department,
17th *February* 1876.

No. 335. ORDER THEREON, 17th February 1876, No. 448.

IRRIGATION, No. 36.

THE Collector will be directed by the Board of Revenue to settle, as far as practicable, in correspondence with the Company's Agent, what should be the demand of the Company for water supplied during 1873-74. In regard to charges on which agreement cannot be arrived at, the Collector should decide with the Agent as to the issues which it is necessary to submit to Government for their decision, and these should be clearly stated and forwarded through the Board of Revenue. In the case of charges for water supplied to tanks where the claims made by the Company are in accordance with the rules and are not open to objection, credit should be given with as little delay as possible.

Kurnool Collector's Office

No 49 — 28th January 1876

From

The Collector of

Kurnool

To

The Secretary to Government

Public Works Department

Madras

Sir,

With reference to G. O. No 790 of the 20th March last directing the early determination, in communication with the Chief Engineer Madras Irrigation Canal Company of the correct areas of Cultivation under the Canal and of the demands for water supplied in 1873-74, I have the honor to report that there is no difference in the net adjusted demands under the several heads in the Ramalkota and Nandekotkur Talugs, the slight difference in areas being due to defective calculation in the Company's accounts. The Chief Engineer has, it is reported

by

by the Deputy Collector, consents to accept the areas as given in the Government accounts.

In regard to the remaining 3 Talugs of Kandiah, Koilkuntla and Sirvella where there are differences both in the areas and adjusted demands under several heads, I have the honor to state that such differences appear only in a very few Villages of the Talugs. A Comparative Statement showing the correct areas of cultivation under the Canal and of the Demands for water supplied in those villages, explaining in the Column of Remarks the discrepancies between the Company's and Government accounts is submitted herewith.

It will be observed that the discrepancies are chiefly due to the amount charged for Tank supply being excluded in the Government accounts and partly to mistakes in the Company's accounts.

I have the honor &c,

Sir,

Your most obedient Servant

Collector

S.W. 1876 Sept.
