Proceedings of the Madras Government, Public Works Department,
2nd March 1876.

Nos. 12 & 13. Read the following :—

Statements of Savings and Demands from all District Engineers.

No. 14. Office minute, 2nd March 1876, No. 568.

ACCOUNT, No. 3.

The foregoing papers give cover to Statements of grants surrendered and of supplemental allotments applied for which District Engineers hope to utilize if made available before the close of the official year.

2. The demand under Military being much larger than the sums available for transfer, and the Examiner of Public Works Accounts having intimated that a sum of Rupees 10,000 is likely to be available for transfer to works owing to decrease of stock balances, a portion of that amount is availed of to meet the demands under Military and other Services, Imperial.

The following redistribution of funds is sanctioned :—

7. The Superintending Engineer, Coimbatore, applies for Rupees 842 for providing accommodation for the Police Guard employed in the Central Jail at Coimbatore. With reference to G.O., No. 23, of 5th January 1876, the Financial Department will decide what amount is to be allotted for this work, whether Rs. 189 or Rupees 842.

8. The Revenue Department will be informed that the District Engineer of Nellore has surrendered the grant of Rupees 3,600 made in the Sadras and Canal Fund Budget for 1875-76 for "constructing two spoil boats required for maintenance purposes on the completed portion of the Northern Canal," the spoil boat now on the canal not having had a sufficient trial to warrant the construction of others on the same model.

9. The Consulting Architect to Government having surrendered* the sum of Rupees 34,510 from the current year's grant for the Senate House, the Educational Department will be requested to reallot that sum for expenditure in 1876-77.

* G.O., No. 361, of 10th February 1876.

10. The Examiner of Public Works Accounts has pointed out that the sum of Rupees 67-8-0 sanctioned from Provincial Funds on account of furniture for the office

of the District Engineer, Kurnool, in G.O., No. 3,295, of 9th November 1875, should be provided from Imperial Funds, the grant is accordingly sanctioned, and the Local Engineer will allot a similar amount from funds at his disposal under "Tools and Plant, Imperial."

At the request of the District Engineer, Madura, I have the honor to forward you a revised estimate for restoring the Clock Tower on the old Palace, and also to state that the work is now stopped for want of funds.

No. 573. ORDER THEREON, 22nd August 1874, No. 2,386.

CIVIL WORKS, No. 31.

His Excellency the Governor in Council sanctions the revised estimate, amounting to Rupees 2,340, for restoring the northern turret of Tiroomala Naick's Palace at Madura, which is Rupees 274 in excess of the estimate previously sanctioned. The work may be completed from the Budget provision of Rupees 10,000 for the Palace works.

2 Site Plans.
2 Plans.
2 Abstract Estimates.
2 Specifications.

With reference to letters, Nos. 361 and 418, dated respectively 5th and 17th March 1874, from the late Inspecting Engineer for Civil and Military Buildings, I have the honor to submit estimates of Rupees 3,410, accompanied by plans and specifications, for constructing a Range and Overseer's Office and Stores at Tripatore, and an Overseer's Office and Stores at Uttengherry in the Tripatore Range, which are urgently required, and to request that Government will be pleased to sanction the same.

2. The buildings are on the measurements suggested by Colonel Foord in his letters quoted above.

3. At Tripatore there is no Range Office. At present the work is done in the old soldier's shed, which is both inconvenient and insecure, the real office having been hitherto the Range Officer's own house.

4. There are buildings called Overseer's sheds at Tripatore and Haroor division in the Uttengherry Taluq ; they are utterly useless, the mud walls are decayed, the roofing destroyed by white-ants and insecure.

5. The works have been entered in my Budget for 1875-76.

No. 73. ORDER THEREON, 4th November 1874, No. 3,140.

CIVIL WORKS, No. 8.

THE following estimates submitted with this letter are sanctioned :—

	Rs.
Constructing a Range and Overseer's Office and Stores at Tripatore ...	2,710
Do. Overseer's Office and Stores at Uttengherry	700

2. The first of these works only can find a place in the Budget of 1875-76, the second being below Rupees 2,500 should be brought forward for an allotment from the Provincial Reserve.

Proceedings of the Madras Government, Public Works Department, 5th June 1875.

Read the following papers:—

No. 131. From R. CHISHOLM, Esq., Consulting Architect to Government, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Chepauk, 4th May 1875, No. 30.

In compliance with G. O., No. 2,416-A, dated the 25th August 1874, I have now the honour to submit the following documents for works connected with Tirumala Nayak's Palace, mentioned in the 1st paragraph of the above Government Order:—

	Rs.	A.	P.
1. Estimate for securing the palace throughout with iron ties and repairing to	12,940	0	0
2. Estimate for locating the Collector, Range Officer, Munsif, Tahsildar, Conservator of Forests, &c., &c.	50,950	0	0
3. Estimate for locating the Judge	24,010	0	0
Total ...	87,900	0	0

4. All sanctioned by the Collector.

From these estimates the following sums have actually been expended:—

1. Estimate for securing the palace	10,139	6	0
2. Estimate for the Collector's Cutcherry	14,308	15	11
Total ...	24,448	5	11
Leaving a balance to be sanctioned of	62,552	10	1

2. There remains but one estimate now to complete the whole of the office work connected with this scheme, that for restoring and decorating those portions which are not adjacent to, and consequently not included in, the above-mentioned works.

3. Mr. Lewis recently visited Madura with me, and he has gone over the whole of the palace, taking all the necessary measurements to complete the work in strict accordance with the drawings submitted on the 14th of January 1875. The preparation of this estimate will necessarily occupy some time.

4. I have carefully given the whole subject of the restoration of this fine old pile my earnest attention, and, notwithstanding my natural anxiety to see progress towards this end, I should be failing in my duty to Government did I omit to express my conviction that in carrying on the work by annual grants the full value for the money expended is not obtained. There is a want of heartiness and earnestness both in the superintendence and the actual work-people which shows itself unmistakably in careless work, and if the Government can possibly allow the annual grant to accumulate and then send down an officer like Mr. Wybrow specially to spend the accumulations, I feel certain the result would show itself in cheaper and more substantial work. I inspected the palace at Trichinopoly before proceeding to Madura, and the vigor exemplified in the former (which is highly creditable to Mr. Wybrow) forms a striking contrast to the spasmodic efforts and long delays which have characterized the execution of the latter.

5. If the Government will be pleased to accept this proposal and to allow the funds to accumulate, I would ask sanction now for the following two sums only:—

	Rs.	A.	P.
1. Estimate for completing the iron ties	1,901	10	0
2. Estimate (extra) for iron railings, an item of the Collector's estimate	693	8	0
Total ...	2,595	2	0

6. The second item requires explanation. Mr. Robinson, of the Spence Iron Foundry, usually worked on my estimated rates, which were low but adequate, in my opinion, for the work. In January last the Spence Foundry passed into the hands of a Company, who submitted a bill amounting to Rupees [illegible] Rupees 561-8-0 over my estimated sum of Rupees [illegible]. I have, however, seen Arbuthnot, the Agents of the Company, on the subject, but [illegible] that they will reduce their rates.

7. There is also an excess of Rupees [illegible] on account of carriage of iron work, and [illegible] Rupees 693-6-0, the amount was estimated. I would [illegible] items, and in future either obtain castings [illegible] Department Stores.

8. The following comparative statements [illegible] estimates, original and revised, are also submitted:—

1. Securing the palace with iron ties [illegible]
2. Verandah in front [illegible]
3. Taluq Overseer's Office [illegible]
4. Deputy-Collector's Office [illegible]

No. 134. Docket from the Controller of Public Works Accounts, dated Fort St. George, 3rd May 1875, No. 1[illegible].

THE following memorandum is forwarded to the Chief Engineer, Department of Public Works, with reference to his memorandum No. 440, of the 23rd April 1875.

No. 135. ORDER THEREON, 5th June 1875, No. 1,587.

CIVIL WORKS, No. 16.

WITH letter, No. 30, dated 4th May 1875, the Consulting Architect submits certain estimates for the completion of all works in connection with Tirumala Naick's Palace, with the exception of restoring and decorating those portions of this ancient pile which are not adjacent to the main building, and for which latter estimates will hereafter be submitted.

2. The works included in the above estimates, at a total cost of 87,000 Rupees, comprise the following:—

Deducting the expenditure already incurred on the above works, a sum of Rupees 58,393 will have to be provided.

3. The Honorable the Governor in Council sanctions the above estimates and will await the further estimates called for in G. O., No. 444, dated 16th February 1875.

4. The first of the items given in paragraph 5 of Mr. Chisholm's letter for completing the iron ties is approved of for immediate execution, and Government having in G. O., No. 1,118, dated 20th April 1875, directed the work in connection with the

Racket Court to be carried out with the allotment of Rupees 7,000 made for the purpose, the grant of 10,000 Rupees for the current year will be a great relief. In 1876-77 a sum of Rupees 17,250 will become available from Fort Glacis funds under G.O., No. 1,186, dated 29th April, in addition to the annual allotment of Rupees 10,000. It will then be considered whether arrangements can be made for the more expeditious execution of the work under special supervision.

Proceedings of the Madras Government, Public Works Department,
19th November 1875.

No. 460. Read the following letter from Captain ROSS THOMPSON, R.E., Officiating Consulting Architect to Government, to Major-General G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Chepauk, 28th October 1875, No. 247:—

I have the honor to submit a letter received from Messrs. Arbuthnott and Co., with reference to the cast iron railings supplied by Mr. DeClosets to Tiroomala Naick's Choultry.

2. In forwarding a copy of the same to the District Engineer of Madura, I requested him to take steps for speedily adjusting their claim, and herewith enclose his reply.

I have the honor to request that Government will be pleased to sanction the early payment of the amount due.

From Messrs. ARBUTHNOTT and Co., Secretaries and Treasurers of the Napier Foundry Company, (Limited) to Captain ROSS THOMPSON, R.E., Officiating Consulting Architect to Government, Madras, dated Madras, 16th October 1875.

We have the honor to acknowledge the receipt of your memorandum, dated 14th instant, forwarding copy of letter from Lieutenant-Colonel Fischer, R.E., District Engineer, Madura, and in reply beg to state that the first application for payment of the bills therein alluded to was made to Mr. Clerihan, the Consulting Architect to Government, for—

Rupees	509	3	4	on 14th February	1874.
,,	341	1	0	on 16th March	,,
,,	354	12	8	on 16th April	,,
,,	266	0	8	on 14th May	,,

and as it is most inconvenient for Mr. DeClosets to be kept any longer waiting for money now so long due to him, we have the honor to request that the amount of his claims may be settled without any further delay, or we shall be under the necessity of making an application to Government through our Solicitors with regard to it, in which case interest at the rate of 12 per cent. per annum on the original amount will be claimed from the dates on which the respective bills were first submitted to the Consulting Architect to Government for payment.

From Lieutenant-Colonel J. F. FISCHER, R.E., District Engineer, Madura, to Captain ROSS THOMPSON, R.E., Officiating Consulting Architect to Government, dated Tuticorin, 23rd October 1875, No. 2,092.

Your No. 239, dated 19th October 1875.

In reference to the above I have the honor to inform you that the amount (*viz.*, Rupees 1,591-4-8) of Mr. A. DeClosets' bills can be met from such sums which have been appropriated from the current year's allotment for the Palace, but which it is probable cannot be fully utilized during this year. But it is observed from paragraph 5 of G.O., No. 1,557, of 5th June last, that the payment of the bills is to be authorized by Government after the submission by you of the "further and more particular explanation" about the additional amount required for iron railings.

ORDER THEREON, 19th November 1875, No. 3,911.

CIVIL WORKS, No. 30.

THE District Engineer of Madura will take immediate steps for the adjustment of the account with the Napier

Foundry Company. It is stated in another letter from the Consulting Architect, No. 246, of 27th October, that "from a careful search into the records of the office, there do not appear to be any documents bearing on any agreements entered into with Mr. DeClosets." And it is presumed that he has been unable himself to obtain any explanation, in personal communication with that gentleman, of the increased charges complained of in paragraph 6 of Mr. Chisholm's letter, recorded with G.O. No. 1,187, of 5th June. Under these circumstances His Excellency the Governor in Council directs that District Engineers shall not give orders to the Nasser Foundry Company till they shall have satisfied the Chief Engineer of the Public Works Department that they cannot get their work well and reasonably executed at the Public Steam Workshops.

2. It is not clearly understood what is the exact excess over the sanctioned estimate of Rupees 12,040 that will be incurred by this payment; the Director will report clearly.

Sir,

With reference to Para 2 of your Memorandum No. 657 dated 4th instant, I have the honor to inform you that appropriations, & the full extent of the expenditure under Civil Buildings have since been made.

2. The outlay under Repairs Military is limited, because the repairs of the Sick Lines at the Remount depot cannot be pushed on till the alterations of the Stalls have been completed.

3

3. The delay in getting the work
No 1 Line - on hand, is due to
there being no material procurable
at Ootacamund. The Cook warden had
therefore to get timber from Bangalore
and have his new tiles laid before com-
mencing work.

4. The Executive Engineer reports
that, in consequence of this, he will
not be able to work out the full grant
for the Cook Lines without the proposed
Opening.

5. In the Budget, no provision
was made for "Tools and Plant
Provincial", but, as tools were ur-
gently required, orders were made
for such as were absolutely necessary
with the intention of providing
funds when submitting the next
distribution Statements in January
next.

To

The Secretary to the Government of Madras

Public Works Department

Fort William, the 11th December 1875

Sir,

I am directed to acknowledge the receipt of your No. 2928 dated 14th October 1875, soliciting sanction to the reappropriation of funds for works classed as follows.

Proposed reduction

From	Rs.
Grants for class A works	3,416
" for class B works	899
	4,315

Proposed new grant

For	
Rifle Range at Palavaram, class A	900
Minor works. Military	2,815
" " Civil Buildings	200
Repairs do.	400
	4315

2 In reply I am to observe that the appropriation of funds from grants for major works to Minor Works and Repairs is undesirable and that in the absence of explanation as to why the charges cannot be met from the existing grants for Minor Works and Repairs, the Government of India do not consider it desirable to sanction the re-appropriation proposed under those Heads - The Rifle Range at Palavoram being a work in progress, the proposal to provide Rs 900 for it by transfer from the grant for Officers quarters and Mess room at Mullicpurum is, I am to say, sanctioned -

3 I am to add that these re-appropriation statements may for the future be submitted in manuscript and in duplicate and not in print -

I have the honorable,
Sir,

Sir,

I have the honor to forward herewith
4 Statements of Savings and Demands,
in view to the orders of Government being
passed upon them -

2. The accompanying Statement shows
the totals of Sums surrendered and ad-
-ditional grants required, Classed under
the heads "Imperial" "Provincial" and "Special"
funds -

District	Amount given up.						Additional funds required				
	Imperial	Provincial	Port Fund	Educational Fund	Public Buildings	Total	Imperial	Provincial	Imperial & Provincial	Port Funds	Total

The SECRETARY to GOVERNMENT,
P. W. DEPARTMENT.

Sir,

Enclosures.

With reference to your Circular No 616 dated 3d November 1875, I have the honor to report that the only added work available for transfer under the "Works Building" is the sum of Rs. 2300 Sanctioned in para 3. of G. O. Mr. Report of 5th July 1875, for Constructing a Mud Fence for Troops near the Cudy Railway Station. The Estimate for this work is under revision and there is very little probability that the revised Estimate will be submitted and Sanctioned in time to admit of the allotment being utilized within the current Official year.

The

2. The above allotment of Rs 2300, may therefore be re-appropriated either to the works noted in the margin, which is being proceeded with or to the payment of pensions of pounds Vide para 2 of C. No. 2925 dated 13th October 1875.

3. The works referred to in my letter No. 1695 dated 10th November 1875 under "Repairs Building" have already reported in this office letter No. 1957 referred to in the preceding para.

4. No sums can be spent out of the allotments for "Provincial New works" For "Repairs" under the same head, a further sum is required for the reasons given in my

Sir,

I have the honor to bring to your notice that the Contractor of Public Works Accounts, in his Clearance Statement on the accounts of the Salem Range remarked that "allotments for these works should be obtained from the Imperial grant to admit of the outlay being transferred from Provincial Services, it having been ruled in G.O. No. 199 dated 28th October 1875 that all Forest Public Works including Petty Construction and

New Works. Alterations & improvements to the building purchased for the forest office at Salem. Revised Estimate Rs. 1316

Repairs to —do— do Estimate Rs. 222

and Repairs shall remain Imperfect for the present."

Funds for the above works were granted under the head Provincial, in G.O. No. 220 dated 19th April 1875. At the suggestion of the Collector, several works not provided for in the original estimate of Rs. 386 for improving the building, were executed, and in consequence a revised estimate amounting to Rs. 1316 accompanied by a Comparative Statement, has been forwarded to the Collector on the 22nd December 1875 for submission to Government for sanction.

Sir

I have the honor to bring to your notice that the Trunkgul Range office has submitted no 792 of 2nd August requesting that out of the amount granted for the Zilla Establishment of Rs 2000 for the Tadpatry Circle a sum of Rs 2000 is available for transfer to other works as owing to the prevalence of cholera and the consequent desertion of coolies by their employers &c, the Conservator for the Cuddapah Circle has drawn out on the plan of expenditure

2. Under these circumstances I have the honor to request that the amount surrendered may be appropriated to the works alluded to in my letter No 3967 of 25th ultimo, and on the

Statement of Demands which accompanied
