MADRAS RECORD OFFICE

Government of Madras

Public Works DEPARTMENT

G.O. No.	582	(w)	Press
B.P. No.			Mis. <i>mis</i>
Dated	3. 3.	1876.	

Not to be folded or roughly handled

Deputy Commissioner, Executive Engineer,
and Civil Surgeon, who reported upon
it, and the proposal was finally <sup>* This accompany-
ing copies of</sup> sanc-
tioned on 14 January 1874.

As Mr. Vanstavern was soon after
ordered from Dumagudem to the coal workings
at Beddandole, the instructions of the
Chief Commissioner were not attended to;
the Supervisor left in charge having neg-
lected to carry out the orders given him.

After Mr. Vanstavern's return to the
Range he brought the matter forward
again in July last, and I have since been
in communication with the Collector
about it.

5. I herewith enclose a rough sketch,
showing the land required for the new
village; the cost of clearing the ground
marking out streets and setting up bound-
ary pillars is estimated at Rs 51, and
that of widening and deepening a bage,
or gully (which runs from the site to the
canal), in order to facilitate the loading
and

and unloading of boats at the new site
would be Rupees 142.

6. Mr. Vanstavern's plan for effect-
ing the removal of the present village is
(1) to prevent the erection of any new
buildings or enlargement of old ones
at Dumagudem, (2) to levy a rent on
the present holdings which are on pub-
lic Works land; this was recommended
by the Collector as a means of secu-
ring the right of the Department to the
land, which would otherwise lapse; (3)
to offer new sites for buildings rent free
at the new ground at Gongole. Some
of the inhabitants of Gongole are report-
ed to be prepared to move at once as soon
as building sites are granted them.

7. The ground required has been mea-
sured up by the Tahsildar's Surveyor and
amounts to 66 acres; it is Government
waste land, and the soil is decayed
felspar unfit for cultivation; so that
no loss of revenue will accrue to Gov-
ernment from the village site being
given

fixed there, and no compensation will have to be paid.

8. The Collector has informed me that he has no objection to the land being taken up, and has directed the Tahsildar to hand it over to Mr. Vanstavern.

9. The expenditure now proposed is only Rs. 193, and to this I request you will be so good as to obtain the sanction of Government.

I have the honor to be,
Sir,

Your Most obedient Servant
W. Beatty - Major R.E.
District Engineer Godavery.
