*Proceedings of the Madras Government, Public Works Department,
7th March 1876.*

No. 78. Read the following letter from T. D. HARRIS, Esq., Officiating District Engineer of Malabar, to Major-General G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Calicut, 3rd March 1876, No. 201 :—

IN obedience to orders conveyed in G.O., No. 3,461, dated 7th December, I have the honor to submit survey and sections recording on one sheet the observations of December 1873, August 1874, and October 1875, of the rocky islet off Beypore with the main land. I may add that the sea-wall has been completed during the past two months as proposed in my No. 121, dated 10th November 1875, and sanctioned in Government Order above cited, in the most careful manner possible, having seen the whole foundation laid down myself and most of the casing set; it would be premature of me to assure you of complete permanency, but from what is taking place I think there is little doubt of the permanent success of the work, the isthmus is permanently secured I think; I shall however wait till November with a view of seeing the effects of the monsoon before submitting you another set of sections.
