*Proceedings of the Madras Government, Public Works Department,
14th March 1876.*

Read the following papers :—

No. 188. From Major J. VERTUE, R.E., District Engineer, Trichinopoly, to Major-General G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Trichinopoly, 8th July 1875, No. 357.

WITH reference to G.O., No. 260, dated 23rd June 1875, I have the honor to forward, for sanction and provision of funds, an estimate duly countersigned, amounting to Rupees 2,030, for strengthening the doors and windows of buildings in the Central Jail, by providing horizontal flat iron to the upper, middle, and lower wooden bars through which the vertical iron bars pass. This will, it is believed, render the doors and windows secure, without incurring the expense of providing continuous bars.

2. It has been ascertained that the doors of the solitary cells are provided with through bars.

No. 188-A. Chief Engineer's Memorandum, dated 21st January 1876, No. 131.

No. 189. From Major J. VERTUE, R.E., District Engineer, Trichinopoly, to Major-General G. W. WALKER, R.E., Chief Engineer, Public Works Department, dated Trichinopoly, 4th March 1876, No. 935.

WITH reference to your Memorandum, No. 131, of 21st January, I have the honor to forward an estimate for Rupees 3,050 and a specification for strengthening the doors and windows of the Central

Jail, Trichinopoly. Continuous iron vertical bars have been provided, and, as an additional safeguard, flat iron has been allowed for the top and bottom sills and transverse pieces, while, finally, the through bars are passed through the top and bottom sills and revetted.

Specification report to accompany
 Estimate amounting to Rs 3050, Three thousand
 and fifty, for strengthening the doors and
 windows of the Central Jail. In Calcutta.

1. The necessity of this work was pointed
 out in the Inspector-General of Jails' letter
 No 307 of 23rd January 1876 to this Office,
 and an Estimate amounting to Rs 2030-
 was submitted, which allowed for strengthen-
 ing the doors and windows by inserting
 the present bars through flat iron bars,
 which would have effectually prevented any
 attempt on the part of the convicts to cut
 out the bars. This estimate was returned for
 revision to this Office, with instructions to
 prepare an Estimate for continuous iron bars.

2. The present Estimate therefore provides
 for strengthening all the doors and windows
 in the Hospital and Wards by fixing flat
 iron on the upper and lower frame pieces
 and cross pieces; and by making the iron bars
 through bars, the ends of the bars to be rivetted
 through the flat iron on top and bottom.
