No. 36 G.
FROM

THE SUPERINTENDENT,
MADRAS HARBOR WORKS,

TO

The Secretary to Government
Public Works Department,

MADRAS, 10th January, 1876.

Sir,

I have the honour to report that Mr. Parkes has expressed a wish, first stated in the spring of last year, and repeated from time to time since then, for me to visit the Harbour Works at Rurrachee, because the works of the Manora Pier are similar to those of the proposed Piers at Madras, and on account of the plant which Mr. Price, the Superintendent at Rurrachee, is now arranging for shipment to these works. -

Mr. Parkes writes thus, November 12. 1875.

"I shall be glad to hear that after H. R. H. has left Madras, you will go up to Rurrachee." -

In case this journey may be approved, the present time appears to be convenient, while the new approach is being made to the North Pier at Royapuram; and in

No. 128. Read the following endorsement of the Consulting Engineer for Railways,
dated Madras, 20th December 1875, No. 663:—

No. 970.

SOUTH INDIAN RAILWAY.

ENGINEERING DEPARTMENT.

Report of Accident.

Collectorate.—South Arcot. Railway District, Section and Mile.—District 9, Northern Extension, 125th mile, Section I. Between what two Stations, and name of nearest Village.—Tripapulyur and Nellikupam, Tripapulyur. Whether at a level crossing or not.—Not at a crossing. Date of the accident.—3rd November 1875. Nature of the accident.—Internal bruises and a flesh wound caused by the man falling in front of the wheels which ran against his leg and abdomen. At first it was thought he was not seriously hurt, but on examination the Doctor finds that it may cause inflammation internally. Circumstances which caused the accident.—He tried to get on a wagon while in motion and fell under the wheels. Nature of assistance afforded.—Sent to the hospital at once. Name, age, caste, and occupation.—Jagaram Sing, aged 25, Rajpoot caste, conicopillay. Gratuity proposed to be given or not; if so, how much.—No gratuity proposed, it being the man's own fault. Whether reported to the Police authorities and verdict of inquest (if any).—Not reported to the Police till the following day, because at the time of the accident the injuries were not considered serious. Remarks by the Company's Officers.—This man was in charge of the wagon which was carrying bricks, he tried to jump on the wagon while in motion (being pushed by coolies).

TRICHINOPOLY,
9th November 1875.

CERTIFICATE.

I HEREBY certify that on the 4th instant at the Civil Dispensary, Manjacooppum, I carefully examined Jaganatha Sing, aged 23 years, and by caste a Rajpoot, and found that he had sustained the following injuries:—Externally, abrasion of the skin and contusion of the abdominal wall over its entire inferior surface; severe contusion of right groin with a circular lacerated wound, nearly the size of a rupee, over the middle of Poupart's ligament. From this wound there was considerable venous hæmorrhage. Internally there was evidence that the abdominal organs had sustained serious injury; most probably rupture with hæmorrhage. The patient was under my treatment on the 4th and 5th, and died at 11 on the evening of the 5th. I am of opinion that his death was caused by the severe injuries sustained by the abdominal organs.

CUDDALORE,
6th November 1875.

(Signed) C. ROBERTSON, M.D., Surgeon-Major,
Officiating Zillah Surgeon.

SUBMITTED for the information of Government.

2. In reply to an application made by the Agent, South Indian Railway Company, for copy of an inquest held upon the body of the deceased, the accompanying copy of the Zillah Surgeon's certificate, attested by the District Magistrate of Cuddalore, was sent.

(Signed) J. H. M. SHAW-STEWART, Lt.-Col., R.E.,
Consulting Engineer for Railways, Madras.

such case, I would propose to leave here by the
mail train for Bombay next Friday
evening. - The time required for the
journey to Kurrachee and back to Madras
is about a fortnight. -

I leave the honours to be

Sir

Your most Obedient Servant,

James Allen,

Superintendent

Madras Harbour Works

I hereby certify that on the 4th Instant at the Civil Dispensary, Bangalore, I carefully examined Jaganatha Sing aged 23 years, and by caste a Chetty, and found that he had sustained the following injuries. Externally, abrasion of the skin and contusion of the abdominal wall over its entire inferior surface, severe contusion of right groin with a circular lacerated wound, nearly the size of a Rupee over the middle of Pamparto ligament. From this wound there was considerable renaurkhamorrhage. Internally there was evidence that the abdominal organs had sustained serious injury, most probably, rupture with haemorrhage. The patient was under my treatment on the 4th and 5th and died at 11 P.M. on the evening of the 5th. I am of opinion that his death was caused by the severe injuries sustained by the abdominal organs.

} (H.O. No. 663 of 20th Decr 1875)

Recorded. It
would appear with
reference to G.O. No. 2950
of 15th October 1875, that
the supervisors of work-
men are as rash as the
workmen themselves. Or
perhaps it might be
more correct to say as
ignorant of the risks which
they habitually run.
