*Proceedings of the Madras Government, Public Works Department,
30th March 1876.*

Nos. 511 & 512.

ORDER THEREON, 30th March 1876, No. 817.

IRRIGATION, No. 51.

Account.

THE above statement which has been compiled from the returns received from the local officers shows that under Capital Extraordinary the savings amount to

Rupees 7,002, and the demands to Rupees 7,945.

2. The demand which is for the improvements to the Survapully channels, Item No. 19 of the Budget for the year, will be met to the extent of the savings by the necessary transfers which are authorized subject to the approval of the Government of India.

3. Under Capital Ordinary the savings amount to	...	Rupees	57,068
And the demands to	...	"	48,616
Net savings	...	"	8,452

4. The sum of Rupees 18,000 has been surrendered by the District Engineer, Nellore, from the amount of Rupees 25,000, Item 67 of the Budget, and explanation should have been afforded of the cause of the short outlay. The District Engineer, Godavery, gives up Rupees 7,555 of the grant (supplementary) of Rupees 15,000 by the Government of India for constructing protective works round the Polarum Island. Expenditure was restricted by the Order of this Government, No. 2,765, dated 24th September 1875. The other surrenders require no special notice.

5. The original grant for the Chembrumbankum Tank Project, Item No. 29 of the Budget, amounted to Rupees 28,000. This was reduced to Rupees 8,000 by transfer to the Pennair Anicut, and the District Engineer now enters a demand for Rs. 25,991. The works in progress are necessary for the safety of the tank, and the expenditure could not be delayed. Funds were also required for compensation for land already taken up.

6. The transfer of Rupees 6,480 to the District Engineer, Kurnool, for the construction of new escapes to the Nundial tank is necessary in order to render the work secure before the rains. For the Godavery embankments, Items Nos. 63 and 64 of the Budget, an additional grant of Rupees 4,000 is required, and with the remaining demands will be met from the savings recorded, leaving a saving unappropriated of Rupees 8,452 under works which, with the sanction of the Government of India, will be reserved to cover in part the anticipated increase under Suspense (Stock Balance), Godavery District. The saving of Rupees 2,046 under Tools and Plant, Capital Ordinary, as well as the saving of Rupees 2,422 under Tools and Plant Revenue, will, subject to the same reservation, be similarly dealt with.

7. No specific appropriation can be made to meet the demands amounting in the	RS.	aggregate to Rupees 12,930 under Tools
Capital Ordinary	...	and Plant Ordinary.
Revenue	...	
	12,905	
	25	
	12,930	

8. A copy of these Proceedings will be forwarded to the Government of India with a request that sanction may be accorded where necessary.

N^o 814 Public Works Dept.
Proceedings of the Madras Government
Under date the 30th March 1876
Read the following:

Print
Statement of Savings and Demands for 1875-76
Compiled from returns received from the Local
Officers.

The above state-
ment which has been
compiled from the
returns received from
the local officers
shows that under
Capital Extraordinary
the savings amount to Rs. 70025
and the demands to Rs. 7945

The demand which
is for the improve-
ments to the Surva-
pully Channels, item
No. 19 of the Budget
for the year will
be met ^{to the extent of the savings} by the necessary
transfers which are
authorized subject to

By 30 March 76 W 510

Ci 30-3-76.

the approval of the Government of India. The balance of the savings, namely, Rupees 25,78, will, under the same reservation, be transferred to Tools and Plant, Extraordinary, to meet in part the net demand of Rupees 10,800 under that head, and the District Engineer, Godavery, will restrict his expenditure accordingly.

Under Capital Ordinary
the savings amount
to Rupees - 57,068
and the demands
to Rupees - 48,616
Net Savings - 8,452

The sum of Rupees 18,000 has been surrendered by the District Engineer,

Godavery, from the amount of Rupees 25,000 item 17 of the Budget, and explanation should have been afforded of the cause of the short outlay. The District Engineer, Godavery, gives up Rupees 7,555 of the grant (supplementary) of Rupees 15,000 by the Government of India, for constructing protective works round the Polarum Island. Expenditure was restricted by the order of this Government No. 2465, dated 24th September 1895. The other surrenders require no special notice.

The original grant for the Chembambakam tank project, item No. 29

of the Budget amounted to Rupees 28,000. This was reduced to Rupees 8000 by transfer to the Pannair amicut, and the District Engineer now enters a demand for Rupees 25,991. The works in progress are necessary for the safety of the tank, and the expenditure could not be delayed. Funds were also required for compensation for land already taken up.

The transfer of Rupees 6480 to the District Engineer's account for the construction of new escapes to the fundamental tank is necessary in order to render the work secure before the rains.

For the Godavery tank bankments, items no. 63 & 64 of the Budget, an additional grant of Rupees 4000 is required, ~~and~~ with the remaining ~~disbursements~~ will be met from the savings realized, leaving a saving unappropriated of Rupees 8452 under Works which, with the sanction of the Government of India, will be reserved to cover in part the anticipated increase under Expenditure (stock balance) Godavery District. The saving of Rupees 2046 under Tools and Plant, Capital, Ordinary, as well as the saving of Rupees 2422 under Tools and Plant Revenue, will, subject to the same reservation,

be similarly dealt
with. No specific
appropriation can
be made to meet
the demands amounting in the
aggregate to Rupees 12930
under Tools and
Plant, ordinary.

Capital Ordinary Rs 12905
Revenue — " — 25
12930

A copy of these
Proceedings will be
forwarded to the
Government of India
with a request that
sanction may be
accorded where
necessary.
