3. The items that call for remark are noted below :—

*Items 3 and 12.*—These are road works and their cost should be charged to the Road Fund and not to the General Fund as proposed by the President.

*Item 4.*—The construction of a Dispensary at Gopaulpore must be postponed until a standard plan for Mofussil Dispensaries, which is now under the consideration of Government, is decided upon. The plan and estimate for the building received with the second of the letters recorded above will now be returned to the President.

*Items 13 and 15.*—The Board doubt the necessity for a Sanitary Inspector and for a Writer to keep the accounts of expenditure on sanitary works in the Huzur, and

remark that it is the first application of the kind from the districts. The Circle Board should reconsider the question of the employment of the Inspector, and should they be of opinion that his services are indispensable, the President can renew the application, pointing out clearly the necessity for the creation of such an appointment and the nature of the work to be performed. As regards the Writer, the Board observe that there are already two Local Fund Clerks on Rupees 50 and 25 allowed to aid the Account Department of the Collector's Office in keeping Local Fund Accounts, &c., and that they fail therefore to see the necessity for a further additional Clerk if the Account Department performs a fair share of the work, as there was no intention in affording extra aid of relieving it of any portion of its legitimate duties.

*Item 14.*—The President is requested to submit a separate application for the proposed increase of wages to the bungalow servants, explaining fully the necessity for the increase for submission to Government.

4. The total allotments now sanctioned by the Board are:—

|                             |     |     |     |        |

The Accountant-General is requested to place Rupees 2,700 at the disposal of the Public Works Department.
