THE District Engineer having brought to my notice that some of the trees growing on the bank of the Ponné Anicut Eastern Main Channel are owned by private parties, and that in consequence much inconvenience is felt by his department in inspecting the channel, an inquiry was instituted through the Tahsildar of the

long held on puttah by Munisami Gounden, Andiappa, and others.

2. There are 117 (76 + 41) trees on the land in question as shown in the margin. At the time the Ponné Anicut Main Channel was excavated, the land under reference did not form part of the channel bank, but when it was widened about eight years ago it was taken in. The ryots make use of the leaves of these trees for manuring their lands, and are not therefore willing to give up the lands or the trees which grow thereon. A translation of their statement of objections is enclosed.

Owned by Andiappa and others.

Acting Head Assistant Collector for the time being to take order for the acquisition of the land in question.

Kyfiat taken from I. Muniam
Gowden, Sundiappan, & Thondroyan of
Vadoor.

Our pattah lands, dry, lie close
to the Ponne Anikut Channel bund
and contain trees new & old, which had
been planted prior to the formation
of the bund. We are not willing to relin-
quish the lands to the Department Public
Works, nor receive compensation for
them. We had planted the trees at a
great outlay, and the leaves thereof
are used as manure for our lands.

We have no other trees for the
purpose and therefore beg
to repeat that we are quite

warrant to give up the lands.
