*Proceedings of the Madras Government, Public Works Department,
15th January 1876.*

No. 179. Read the following letter from Major J. BEATTY, R.E., Officiating Superintending Engineer, Godavery District, to Major-General G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Dowlaishweram, 1st December 1875, No. 2,614:—

I HAVE the honor to report that part of the roof of the old District Engineer's Office at Dowlaishweram having fallen in, owing to the very decayed state of the wood work, I have been obliged to pull down about half the roof to save the tiling.

2. Several months since some parts of the building had fallen into such a dangerous state that it was necessary to cease using them for any purpose, and during the monsoon I was obliged to vacate it entirely.

3. I have already reported that the walls are of no value, being cracked throughout from top to the bottom of the foundations, which were of insufficient width and depth.

4. The office and all the records and stores are now located in thatched buildings which I have rented for the purpose, as there are no buildings with pukka roofs available.

5. Such being the case, I have the honor to report under paragraph 4, Section I., Chapter XI., of the Public Works Code of the Government of India, that the old office should be dismantled and the site cleared in preparation for the erection of the new office, which I would now propose to place on the same site as the old office.

6. When submitting the estimate for the new District Engineer's Office, I proposed to place it on a piece of waste land lying in front of the old office, and about midway between it and the main canal. But I think now it will be better to use the site of the old building and keep the other piece of ground unoccupied.

No. 180. ORDER THEREON, 15th January 1876, No. 91.

CIVIL WORKS, No. 8.

THE old District Engineer's Office at Dowlaishweram may be dismantled as recommended by the District Engineer, and the site used for the erection of the new building sanctioned in G.O., No. 910, dated 6th April 1875.

(True Extract.)

Major-General, R.E.,
Secretary to Government.

To the District Engineer, Godavery.
„ Chief Engineer for Irrigation.
„ Controller of Public Works Accounts.

No 91.
