*Proceedings of the Madras Government, Public Works Department,
11th April 1876.*

No. 203. Read the following letter from W. C. FURNIVALL, Esq., Under Secretary to the Government of India, Public Works Department, (Railway,) to Major-General G. W. WALKER, R.E., Secretary to the Government of Madras, Public Works Department, (Railway,) dated Fort William, 1st April 1876, No. 904 R. :—

I AM directed to acknowledge the receipt of your No. 540, dated the 28th February 1876, forwarding the tabulated details of construction of the section of the South Indian Railway from Trichinopoly to Madura, concerning which I am to make the following remarks.

2. Table VI. It is not stated whether lodges or gatekeepers are provided at crossings lying on the portion of the line from 76 miles to 91 miles. The omission should be supplied.

3. In Table No. IX, the drainage is shown to 1 mile 60 chains only, and I am to inquire why the drainage on the rest of the line is not given. If there are no special reasons for the omission, the information should be furnished.

4. With reference to Table X, I am to observe that it would have been more complete if the depth of ballast and the width at top and bottom had been specified, and to request that a cross section may be submitted for the information of the Government of India.

5. In Table XII, a full size diagram of the form of rail should be given, as also the weight of rail per yard and the dimensions of the sleepers used.

No. 204. ORDER THEREON, 11th April 1876, No. 957.

RAILWAY, No. 24.

COMMUNICATED to the Consulting Engineer for Railways for attention, with reference to G.O., No. 539, dated 28th February 1876.

(True Extract.)

Colonel,
Offg. Under Secy. to Govt., P.W.D.

To the Consulting Engineer for Railways.

FORT WILLIAM, 1st April 1876.

SIR,

I am directed to acknowledge the receipt of your L-540, dated the 28th February 1876, forwarding the tabulated details of construction of the section of the South Indian Railway from Trichinopoly to Madura concerning which I am to make the following remarks:—

2. Table VI. It is not stated whether lodges or Gatekeepers are provided at Crossings lying on the portion of the line from 76 miles to 91 miles. The omission should be supplied.

3. In table ~~IX~~ the drainage is shown to 1 mile 60 Chains only

and I am to enquire why the drainage on the rest of the line is not given.

If there are no special reasons for the omission, the information should be furnished. -

4. With reference to Table X I am to observe that it would have been more complete if the depth of ballast and the width at top and bottom had been specified, and to request that a cross section may be submitted for the information of the Government of India. -

5. In table XII a full size diagram of the form of rail should be given as also the weight of rail per yard and the dimensions of the sleepers used. -

I have the honor to be

Sir
Yours most obed^t serv^t

M. Farnhill
