*Proceedings of the Madras Government, Public Works Department,
20th July 1876. No. 1,325.*

Read the following letters :—

No. 308. From W. A. GOODCHAP, Esq., District Engineer, Kurnool, to Lieutenant-Colonel J. MULLINS, R.E., Chief Engineer for Irrigation, dated Kurnool, 27th June 1876, No. 23.

I HAVE the honor to forward a copy of a letter received from Assistant Engineer Mr. Johnston, requesting that his salary be increased 50 per cent. during the time he is employed on special duty at Cumbum, and that the same privilege be extended to his office establishment and lascars as sanctioned in G.O., No. 770, of 11th March 1873, for your favorable consideration and orders.

From J. C. JOHNSTON, Esq., Assistant Engineer, Kurnool, to W. A. GOODCHAP, Esq., District Engineer, Kurnool, dated Kurnool, 27th June 1876, No. 2.

WITH reference to my appointment to Cumbum to take in hand the drainage works, I have the honor to state that I make no demur at all. The Range Office establishment, however, has been allowed increased salaries, and this privilege has also been extended to the office establishments of other departments. Considering, therefore, the nature of my duties, that I shall be obliged to do field duty day after day for perhaps several months in a very unhealthy town, and that without the opportunities of change even about the district, I respectfully request that my salary be increased 50 per cent. during my stay in Cumbum, and that the same privilege be extended to my office establishment and lascars as sanctioned in G.O., No. 770, of 11th March 1873.

No. 308-A. From W. A. GOODCHAP, Esq., District Engineer, Kurnool, to Lieutenant-Colonel J. MULLINS, R.E., Chief Engineer for Irrigation, dated Kurnool, 27th June 1876, No. 24.

I HAVE the honor to give below a list showing the number and description of staff office establishment I think necessary for the special work on the Cumbum tank channels :—

No. 309. ORDER THEREON, 20th July 1876, No. 1,825.

ESTABLISHMENT, No. 22-B.

It is observed that there is no precedent for the grant of extra allowances to the Range or other officer employed at Cumbum; but in consideration of his special work, Mr. Johnston will be allowed permanent travelling allowance; and his establishment now on the scale of an extra officer's establishment will be raised to the strength of a special establishment from the 1st August. This will increase the pay of his writer from Rupees 22 to Rupees 30, admit of the entertainment of a draftsman on Rupees 40, and two additional lascars. The lascars will draw the increment recently sanctioned* in the

* G.O., No. 1,601, dated 26th June 1876. case of the taluq lascars, and on the same condition; i.e., while their permanent or temporary head-quarters are at Cumbum.

2. In order to provide for the permanent increases sanctioned in these orders, the West Coast Canal range establishment will be reduced to the scale† of an ordinary extra officer's establishment from the same date. Since Mr. Harris' assumption of the charge of the Malabar District in March 1875, the West Coast Canal may be said to have ceased to exist as a separate charge. And it is likely to be kept in abeyance still longer pending completion of the East Coast Canal; there not being sufficient funds available to carry out both projects simultaneously.

3. The following is the financial effect of the changes sanctioned in these orders:—

4. The District Engineer, Kurnool, will include in the statement called for in G.O., No. 1,601, dated 26th June, the special allowances now granted to Mr. Johnston's lascars. On receipt of complete information, the approval of the Government of India will be applied for to the special allowances.

5. The extra Overseer's establishment will remain intact, and will, with the Overseer, be employed at Cumbum.

*Proceedings of the Madras Government, Public Works Department,
20th July 1876. No. 1,825.*

6. The Chief Engineer for Irrigation will arrange for such temporary additional Survey establishment as may be necessary.
