*Proceedings of the Madras Government, Public Works Department,
10th April 1877. No. 1,225.*

No. 238. Read the following endorsement of the Officiating Chief Secretary to Government, Judicial Department, dated Fort St. George, 7th April 1877, No. 793 :—

From Lieut.-Colonel T. E. TENNANT, Inspector-General of Jails, to the Officiating Chief Secretary to Government, dated Madras, 6th April 1877, No. 98.

With reference to the Orders of Government, No. 78, dated 11th January 1877, in the Judicial Department, and No. 686, of the 28th February 1877, Public Works

Department, I have the honor to forward the accompanying letter from the Superintendent of the Central Jail at Cannanore, in which that officer requests that the work of deepening the wells in the Cannanore Jail may be carried out by the Public Works Department.

2. There is no objection to the Superintendent of the Jail placing prison labor at the disposal of the Engineer Department, but the work is of a character that cannot with safety be carried out by this department. The wells are already about 75 feet in depth; to deepen them further will require close scientific supervision. I therefore request that the work may be undertaken by an Executive Officer of the Public Works Department.

From Lieutenant-Colonel G. E. [H. BEAUCHAMP, Superintendent of the Central Jail, Cannanore, to Lieutenant-Colonel T. E. TENNANT, Inspector-General of Jails, dated Cannanore, 17th March 1877, No. 172.

I HAVE the honor to acknowledge the receipt this day of Proceedings of the Madras Government, Public Works Department, No. 686, dated 28th February 1877, and with reference to paragraph 3 of the order thereon, i.e., "the work of deepening the wells may be proceeded with by the jail authorities assisted by the Public Works Department from funds in the jail budget," I most respectfully beg to protest against the responsibility the arrangement throws on the Jail Department.

2. Deepening wells is a work that requires strict and scientific supervision such as the Engineer Department only can afford.

3. The Public Works Department have charge of all jail buildings; that department can supply the necessary scientific supervision, and I most respectfully request that they be called on to carry out this work, the Jail Department giving all assistance in its power.

APPROVED, and transferred to the Public Works Department for issue of the requisite orders.

(Signed) D. F. CARMICHAEL,
Officiating Chief Secretary.

No. 239. ORDER THEREON, 10th April 1877, No. 1,225.

Offg. Chief Secretary to Government
Fort Saint George

Sir

With reference to the orders
of Government No 278 dated 11th
January 1877 in the Judicial
Department and No 686 of the
28th February 1877 Public Works
Department I have the honor
to forward the accompanying
letter from the Superintendent
of the Central Jail at Cannanore
in which that Officer requests

that the work of deepening
the wells in the Cannonville
rail may be carried out
by the Public Works de-
partment.

2. There is no objection to
the Superintendent of the rails
placing prison labor at
the disposal of the Engineer
department but the work
is of a character that cannot
with safety be carried out
by this department. The
wells are already about 75
feet in depth, to deepen them
further will require close
scientific supervision.
