Public Works DEPARTMENT

G.O. No.	1241	(w)	Press
B.P. No.			Mis. ✓
Dated	10-4-	1877.	

Not to be folded or roughly handled

NO. 553
N^o 62.

From,

The Superintendent of Army Schools,
Bangalore.

To,

The Quarter Master General,
Fort St George,
Madras.

I have the honor to bring to your notice,
that Native Cavalry Regiments will not re-
quire such large schoolrooms as it is intended
to provide for Native Infantry Regiments.

For the latter, it has been estimated that
the building should accommodate 100 pupils,
but for the former, accommodation for 70
pupils will be ample.

I have the honor to be,
Sir,

Your most obedient servant,

Bangalore

W. H. Grove, Lieut Colonel,
30th September 1876 Superintendent of Army Schools

I think H.P. Lufflin
Wd. Le. tried. I am
in the opinion that a
more open design & the
more suitable & beautiful
in the use of forms. The
children & the farmers at
once seated on the ground.

Brings to notice that several
names for the accommodation
train of 70 pupils will be
couple in State Capital
Reprints of (1844)

Quartermaster General's Office,
Fort Hamilton George 2^d October 1896.

106537

Forwarded for consideration and the Public Works Department as to the changes required in the Standard Plan for Schools for Native Requirements sanctioned in O.S. No. 208 23rd July 1895 (Ld. 3604-29 July 1895 M.D.) to adapt it for Native Cavalry Corps -

My dear
John Lee

Walter Haden Turner

To the Secretary to the Committee
Military Department

120-377-1
 120-22-11-16-377
 120-277-22-20-17

minus one wing to adapt
it to the strength of
a Native Cavalry Regiment.

W. H. M. Hall

Ag. Chief Engineer P. H. D.
Buildings and Roads Branch

7196

In my opinion the school
children & recruits can
be taught as well in an
open thatched building
as in a more costly that-
one. I have of my own
objection to a thatched
roof - i.e. the fear of fire -
but the majority of houses
in the Presidency are thatched
& the people seem seldom
to set them on fire.

Forms are I think wanted
for the higher classes, to
enable the boys & men to
jump up & go to the black
boards, & to enable the
masters, who are walking
about, the more easily to
overlook the students work -
a lock-up place may
be necessary for keeping the

Original of 23/3/77
H. M. Hall
or 16.3.77

N/2

N^o 131.

From, The Superintendent of Army Schools,
Madras.

To, Colonel W. Farewell.

Offg Dy Chief Engineer.

Fort St George,

Sir, Madras.

I am returning the documents forward-
ed with your communication of 26th instanc,
I have the honor to state that the reduced
plan of the standard design for school-
houses for Native Regiments presents
objections from which the other, lopped
design is free. I would wish, therefore,
that in the case of Cavalry Schools the
original design may be adopted, but
minus one wing - as suggested by you in
your letter under reference.

2. The form of the black board, as shown
in the plan, is not quite to my liking.
I should wish the dimensions of the board
to be five feet high and four broad, and
it should be secured to two upright posts,

made to revolve on its centre on two iron
pivots secured to those uprights.

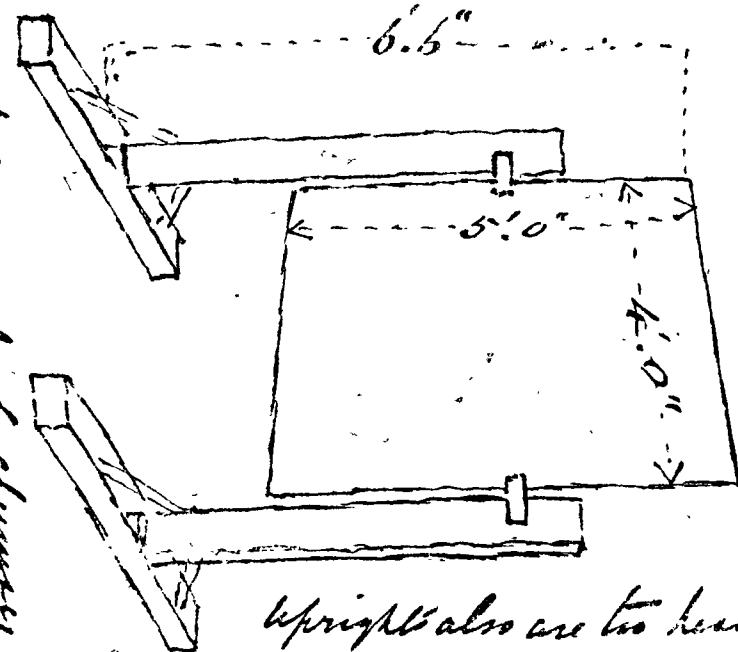

I have the honour to be,

Sir,

Your most obedient servant,

Madras. D. H. Lyne Lieut. Col. &c.,
30th October Superintendent of Army Schools.
1876.

These feet are evidently clumsy &
heavy. M.L.

Uprights also are too heavy.

No. 441 Synchiel Engineer
Charles.
Attest:
The Capt Jasving de Harlo.
Madras 30 October 1876.

C No-131

No 42 S.
d. 12 June, 1877.

9.010.1 April 77 Bk 286A

states that in the case of
Caroline & North the original
design may be adopted.

Decks. — To be of Teakwood 12 ft. long the falls 1 $\frac{1}{4}$ ft. wide with a slope of 2 inches, level in the ledge 3 inches wide with back rail screwed, of 1 inch in height. The front standards are not to be connected with bars but strengthened by knees at the angles, rear standard being strengthened by a rail 1 ft. from the ground.

Forms. _____ To be of Sea Wood. Forms for Desks will be 12 ft long 10 inches wide & 1 ft 5 1/2 inches in height. Form for Class to be 12 ft. long 10 inches wide & 1 ft. 3 inches in height; the Standards are to be strengthened by knees at the Angles, no nails used

Black boards — A. Tobe of Teakwood, the board will be 5 ft in height & 4 ft. broad, properly panelled & framed to prevent warping & will be fitted in two upright standards & made to move on Centre pivots of Iron to set at any angle. The standards will rest on pedestals 3 ft long 4 inches broad & 4 inches deep studded on both sides ^{furnished} with Brass or Iron Casters, as shown in drawing & the whole ^{woodwork to be} painted black.

— **B.** To be of Sea Wood, the board will be of the same description as that noted above & will rest on hinged frames as shown in drawing, with iron hooks, ^{wrought} ~~some~~ iron ties ^{hooks} will be provided to firmly adjust the frames & the whole painted black.

Almiral.—— To be of Teakwood 5ft. 6inches in height 3ft 6inches broad & 14 inches deep with 5 shelves, provided with 2 panelled shutters, hung on Brass hinges & fitted with Brass lock & key.

Desk or Table. — To be of Teakwood 14 ft. benches long 2 ft. 3 inches broad & 2 ft. benches in height & will be of the ordinary description.

Chairs. ————— Do 66 of Sea Kurod of the Ordinary description.

Wooden Stork — 20 lbs of Sea Keweed 1 1/2 inches long 10 inches wide
 & 1 1/2 inches in height.

Regiment of Native Cavalry.

Specification to Accompany Estimate for Constructing a Native Regimental School for 70 Pupils.

Excavation— Foundation to Pillars will be excavated to a depth of 3 ft., & a depth of 1½ ft. to screen walls between Pillars, or to such other depth as may be necessary; to be watered & tamped well to a good level.

Foundation— Pillars will be of burnt brick in clay 3 ft. deep, or to such other depth as may be necessary & built in footings of 1½ ft. each. The footing courses will be carried up in two steps with an offset of 3 inches on either side, breadth of foundations 3 & 2½ ft. respectively. Foundation to screen walls will be 1½ ft. deep, 2½ ft. broad & will be of puddle.

Basement— Pillars will be of burnt brick in clay 1 ft. deep & 2 ft. thick. Basement to screen walls will be of puddle, 2 ft. thick & 1 ft. deep.

Superstructure— Pillars 1½ ft. thick will be of burnt brick in clay. Screen walls between pillars, will be of puddle (consisting of two parts of sand & one part good clay) height 7½ ft. below brassummer.

Painting, White & Color Washing— The interior & exterior of brickwork to be painted with Chumam, & the whole to have 2 coats of white & color wash.

Roofing— Roof timber will be of jungle wood (well seasoned) coupled rafters, rafters, & hip rafters, ridge, brassummer & piers, to be fastened with suitable nails & covered over with pan tiles; the ridge, hips & edge will be protected with Chumam bands. The rafters to be spaced 1½ ft. apart from center to center & piers 5 inches apart; the brassummer to be halved & bolted together at the angles, & the hip rafters notched into them.

Flowing— Will be of broken brick jelly in clay, well watered & rammed, & plastered with one coat of Chumam.

Doors & Windows— Will be of good seasoned jungle wood, doors battened, with hinges, bolts &c. Windows, battened with wooden bars & hinges, bolts &c.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

UNDER date the

Read the following:—

Indorsement of the Military Department (P.O. No. 5063 dt 14th Oct 1876)
From the Supt of Army Schools (P.O. No. 131 dt 30th do)
do do (P.O. No. 16 dt 22nd Jan 1877)

Ordered that the
accompanying Plan
Specification & Estimate
of Manutention be adopted
as the standard for
Regimental Schools for
Regiments of Native
Cavalry, that the plan
be lithographed, the
Specification and
Estimate printed
and circulated

District Engineer

W.H.
14.2.77

This plan does not
seem to me adapted
to our hot climate -
nor being only built in stone
& clay to have any advantage
over an ordinary Mandar
building while it will
entirely block ventilation
and I am glad to
know why this class of building
is recommended. For 27/2
District Engineer.
Cms Architect.

No 1241 Public Works Department.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Under date the 10 April 77
Read the following -

Endowment of the Military Department } (M.L. No. 0063 of 74 Oct 76)
From the Superintendent } (" " 181 " 30 " do)
Army School } (" " 16 " 22 " June 77)
do do do

His Grace the Governor
in Council is of opinion
that ordinary open thatched
Pondals affording free
ventilation are more
adapted for the use of
Schools for Regiments of
Native Cavalry and
Infantry than more
permanent walled
structures. The covered
area the provided being
for Regiments of Native
Cavalry 1250 square feet
and

L.R.
U.

and for Native Infantry
1570 square feet.

The standard plan
circulated with h. d. d.
dated

is cancelled. In future
when submitting plans
and estimates for such
School Pandals as may
be required it will be
sufficient if provision
is made for enclosing
a small portion of
the Pandal with a
bund wall to form a
"Lock up", to con-
tain such of the school
furniture as should
be secured when not
in use.

The estimates for Native
Regimental School Pandals
will

will include the cost
of the requisite furniture
in the proportions noted
below, and of the patterns
lithographed & herewith
circulated.

For Regiment of Native Cavalry
Length Breadth Height
9 Forms - $12' \times 10' \times 1' - 3''$
3 do } $12' \times 10' \times 1' - 5\frac{1}{2}''$
Writing desks }
3 Writing desks - $12' \times 1' - 3'' \times 2' - 8''$
3 Black Boards - $4' \times 5' \times 6' - 6''$
1 Small almirah with
Lock and Key
1 Desk and chair for Head
Master
2 Wooden stools for Assistant
Master and monitor

For Regiment of Native Infantry
12 Forms - $12' \times 10' \times 1' - \frac{1}{4}''$
4 do for writing } $12' \times 10' \times 1' - 5\frac{1}{2}''$
desks }
4 Writing desks - $12' \times 1' - 3'' \times 2' - 8''$
4 Black boards - $4' \times 5' \times 7'$

Small
7

- 1 Small almirah with
lock and key
- 1 Desk and chair for Head
Master
- 3 Wooden stools for As-
sistant Masters and
Monitor
