GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

26th October 1877, No. 1,277 W.

General.
Account.

Read the following paper :—

No. 268. Endorsement of the District Engineer, Presidency, dated 10th October 1877, No. 3,782.

From Lieutenant W. L. BADDELEY, R.E., in charge, Public Works Workshops and Stores, to Major ROSS THOMPSON, R.E., District Engineer, Presidency, dated Madras, 5th October 1877, No. 2,209.

In their orders noted in the margin Government were pleased to sanction a grant

	RS.
G. O., No. 1,126, dated 4th April 1877	2,52,000
G. O., No. 108 W, dated 21st May 1877	2,00,000
Total	4,52,000

of Rupees 4,52,000 for the operations of the workshops for the year 1877-73; out of this sum Rupees 3,92,000 have been drawn, leaving a balance of Rupees 60,000 for expenditure in the next five months of the official year, which is insufficient. I have, therefore, the honor to request that you will be good enough to apply to Government for a further

grant of Rupees 48,000, which will make in all 5 lakhs for the current year's expenditure.

One letter from the General Superintendent, Public Works Stores, &c.

Note

With reference to the remarks of the Honorable Mr. Huddleston on the application of the General Superintendent of the Public Works Workshops for an increase of Rs 48,000 to the sum sanctioned for the working expenses of the Factory during the current official year, it is submitted that the system on which the transactions are recorded in the Government books, may not perhaps be fully understood. The following remarks will it is hoped render the matter clear.

Funds for the working expenses are drawn from the Treasury within the limit which may be sanctioned by Government. In the present case Rs 5 lakhs. This withdrawal may however be more than balanced

by the receipts during the same period, which are paid into the Treasury on realization.

The Government have therefore to concern themselves practically only with the difference between the payments made to, and the receipts paid in, by the Shops. If the payments are estimated to exceed the receipts in any year, budget provision must be made to meet the demand. If on the other hand, the receipts are in excess, credit is taken on the Revenue side of the Public Works Budget.

During the current year it was estimated that a sum of Rs 30,000 would have to be provided to meet loss on working, and this amount has been included in the Public Works Provincial Budget under "Tools and Plant".

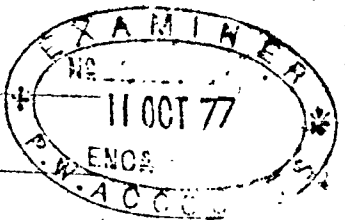

The exceptional activity of the Factory however owing to famine work should, it is thought, result in a handsome profit to the workshops; and in this case the Public Works Budget

Budget will be correspondingly benefitted. A reference on the point will be made to the Examiner.
