MADRAS,
21*st December* 1876.

(Signed) C. S. HEARN, Lieut.-Colonel,
Inspector-General of Police.

No. 257. ORDER THEREON, 15th January 1877, No. 132.

CIVIL WORKS, No. 15-A.

WITH his letter above recorded the Inspector-General of Police submits Revised Lists of Police Works requiring funds in 1877-78. But it is observed that the instructions given in G.O., No. 3,318, dated 8th December 1876, have not been properly attended to. It was ordered in these Proceedings that none but sanctioned Major Works should be brought forward for appropriations of funds; whereas the lists submitted comprise a large number of Minor Works, mostly unsanctioned. Several incomplete works also have been entirely omitted, while others have been insufficiently provided for.

2. On consideration of the whole subject His Grace the Governor in Council is of opinion that the time has arrived for discontinuing the exceptional procedure which obtains in regard to Police works. It is entirely opposed to the principles laid down by the Government of India for the preparation of budgets under which no works but those sanctioned and over Rupees 2,500 should be specially budgetted

Proceedings of the Madras Government, Public Works Department,
15th January 1877. *No.* 132.

for; others being provided for from the grant for Minor New Works and the Reserve; and repairs being brought forward in the usual course in district budgets and carried out from funds placed at the disposal of District Engineers. This course will not in any way militate against Police interests, and its adoption will not necessarily entail any reduction of the amount now set apart for Police works. It will accordingly be introduced with effect from the ensuing official year in which the aggregate grant for Police works will be Rupees 60,000. The list submitted by the Inspector-General will be printed with these Proceedings for the information and guidance of District Engineers in the preparation of estimates.

(True Extract.)

(Signed) G. W. WALKER, Major-General, R.E.,
Secretary to Government.

To the Inspector-General of Police.
To District Engineers.
To the Examiner of Public Works Accounts.
Judicial Department.

NOTE IN THE PUBLIC WORKS DEPARTMENT.

Budget provision for Police Works.

PREVIOUS to the issue of G.O., No. 979, dated 8th April 1870, it had been the practice to enter in the Public Works Budget Estimates *lump sums* under the several districts for Police Works, against which detailed sanctions were given during the year. The system was found to be attended with inconvenience in practice, and it was accordingly resolved to obtain a detail list of *sanctioned works* at the commencement of each official year among which the budget provision might be distributed. These lists fell into arrears with the natural consequence that budget allotments could not be fully utilized. In order to correct this tendency, instructions were issued in paragraph 4 of G.O., No. 1,654, dated 9th July 1872, for preparation of another list, in anticipation of the issues of the Public Works Budgets of the most pressing wants of each district. These lists included as a rule unsanctioned works, and were circulated to District Engineers to guide them in the preparation of estimates. They also served to indicate the sums that required to be provided in the succeeding years' budgets.

It will thus be seen that under present orders two lists are submitted, one during the middle of the year, and the other at the commencement of the year following. The latter list should, if the system be properly worked, contain none but *sanctioned works*. This, however, has hitherto not been the case, the unsanctioned works forming the far greater proportion.

The system above described applies exclusively to the Police Department. No other department of the Government service is so exceptionally treated. The draft G.O. circulated contemplates placing the Police department on the same footing as all other departments of the service, and bringing demands for Police Works under the general Budget rules. Under these rules all demands for Police Works—*New* and *Repair*—should be made direct to District Engineers by the local Police Authorities after approval of the Inspector-General. District Engineers should then incorporate in their budgets submitted to Government requirements on account of Police. Due provision will thereupon be made in the general budget issued by Government. There is nothing in this system to militate against Police interests, and there is no reason why the sums hitherto made available for Police Works should not continue to be provided. It must however be distinctly understood that application for funds for *New Works* should in all cases be supported by sanctioned estimates. It is observed that the Inspector-General admits that there is no objection to the principle of the draft G.O.

(Signed) G. W. WALKER, Major-General, R.E.,
12*th January* 1877. *Chief Engineer, Public Works Department.*

9427 Note on Statement of works

The complete Police Works in the Kurnool, South Arcot & Tinnevelly Districts have been omitted.

Almost all the works entered are below Rs 2500.

With the very few Exceptions the works brought forward are unsanctioned.

The "Ranges" in which the works are situated are not given.

9 January 1877

Memorandum

The list of new Works proposed for 1877/78 submitted to Government with letter No: 5826, dated 21st December 1876 is a preliminary one in accordance with para 4 of G.O. 1654 dated 9th July 1872 P.W.D. and is intended simply for insertion in the P.W. budget Estimate with the approval of Government. This has been the practice pursued for the last 4 years; the detailed statements of sanctioned works not being sent in until the beginning of the new official year.

2. Para 17 of G.O. No 3044 dated 15th December 1870 specially directed the Inspector General of Police to observe "that these particulars are not required "to be furnished at the time of the preparation "of the budget Estimate and that the

provisions

provisions of Rule III apply not to the entries in that Budget but to the detailed statements due by him after the commencement of the official year."

3. The aforementioned detailed statements are those ordered in G.O. No. 979 of 8th April 1870 P.W.D. and it was understood in this office that the instructions recently conveyed in G.O. of 8 December 1876 No. 3318 P.W.D. applied to the preparation of these statements which are due after the close of the official year - and not to the list forwarded for approval and entry in the budget. It would moreover be impossible to afford accurate information regarding incomplete works at this time of the year i.e. November when the lists were first submitted and when 5 months of the year had still to run.

4. If the present system for the Police department is to be changed detailed instructions are necessary so as to enable this office to know the date on which to whom the lists of major and minor works are to be sent. It would appear from the draft G.O. that the intention of Government is that the detailed list of sanctioned works should be submitted in future in time for entry in the budget instead of being forwarded at the commencement of the new official year and that the preliminary list of works hitherto submitted for approval and insertion in the Budget Estimate should be omitted altogether.

Inspector General of Offices.

No. 132 Public Works Department. 20A 13

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Under date the 15 Jan 77

Read the following :—

Letter from the Inspector General of Police ——— } Recd enter No. 5826. 27 21st December 1876.

With his letter above recorded the Inspector General of Police submits revised lists of Police works requiring funds in 1877-78. But it is observed that the instructions given in G.O. No. 3318 dated 8th December 1876. have not been properly attended to as was ordered in these

these Proceedings that none
but sanctioned Major
Works should be brought
forward for appropriations
of funds, whereas the lists
submitted comprise a
large number of Minor
Works, mostly unsanctioned.
Several incomplete works
also have been entirely
omitted, while others have
been insufficiently provided
for. —

On Consideration of
the whole subject His
Grace the Governor in
Council is of opinion
that the time has arrived
for

for discontinuing the exceptional
procedure which obtains in
regard to Police Works.
It is entirely opposed to
the principles laid down
by the Government of
India for the preparation
of budgets under which
no works but those
sanctioned and over Rupees
2500 should be specially
budgetted for, others being
provided for from the
grant for Minor New
Works and the Reserve
and Repairs being brought
forward in the usual course
in District budgets and

Carried

carried out from funds placed at the disposal of District Engineers. This Course will not in any way militate against Police interests and its adoption will not necessarily entail any reduction of the amount now set apart for Police works. It will accordingly be introduced with effect from the ensuing Official year in which the aggregate grant for Police works will

will be Rupees 60,000. The list submitted by the Inspector General will be printed with these Proceedings for the information and guidance of District Engineers in the preparation of Estimates. —

Note in the Public Works Dept. Budget provision for Police Works

Previous to the issue of G.O № 979 dated 8th April 1870 it had been the practice to enter in the Public Works Budget Estimates lump sums under the General districts for Police Works, against which detailed sanctions were given during the year. The system was found to be attended with inconvenience in practice and it was accordingly resolved to obtain a detailed list of sanctioned works at the commencement of each Official year among which the Budget provision

might be distributed. These lists fell into arrears with the gradual consequence that budget allotments could not be fully utilized. In order to correct this deficiency instructions were issued in para 4 of G.O. No. 1654 dated 9th July 1872. for preparation of another list in anticipation of the votes of the Public Works budgets of the most pressing wants of each District. These lists included as a rule unsanctioned works, and were circulated to District Engineers to guide them in the preparation of Estimates. They also served to indicate the sums that required to be provided in the succeeding

year's budgets.

It will thus be seen that under present orders two lists are submitted one during the middle of the year, and the other at the commencement of the year following. The latter list should, if the system be properly worked, contain none but sanctioned works. This however has hitherto not been the case; the unsanctioned works forming the far greater proportion.

The system above described applies exclusively to the Police department.

No other department of the Government service is so exceptionally treated. The

draft by O. circulated to
contemplates placing the
Police Department on the
same footing as all other
Departments of the Service,
and bringing demands
for Police Works under
the general Budget rules.
Under these rules all
demands for Police Works
New and Repairs should
be made direct to District
Engineers by the local Police
Authorities, after approval
of the Inspector General.
District Engineers should
then incorporate in their
budgets submitted to
Govt. requirements on account
of Police. Due provision
will thereupon be made

in the general budget
issued by Government.
There is nothing in the
Ordinance to prohibit
against Police interests
and there is no reason
why the sums hitherto
made available for Police
Works should not con-
tinue to be provided.
It must however be
distinctly understood
that applications for
funds for New Works
should in all cases
be supported by exam-
ined estimates. It is
observed that the Inspect-
or General admits that
there is no objection to

the principle of the desp
G. O. and this note may
be pinned as an accom-
paniment to it, as Colonial
Office seem thinks that
instructions in greater
detail are necessary.
