C. Ponnarungee Mudaliar entered the Civil Engineering
College as a pupil in 1868. He studied in the Overseers
class for a period of one year and a half. He
was afterwards transferred to the Drawing class
at his own request and studied there for six
months during which period in addition to the
instruction received at the college he was being
taught by me as a private pupil.

The total length of his collegiate career was
two years and during this period, I had supervision
over him. He bore a very good character and
conducted himself to my entire satisfaction.
He stood first in the Examination held for
Draftsman and Estimator in 1869 and carried
off the first prize.

For the last one or two months he has been
working under my orders. I find him to be a
neat Draftsman and an excellent Estimator.
He is, in my opinion, deserving of the highest
promotion that can be given to men of his pro-
fession.

Respected Sir

In continuation of my application
of 30th August 1876 I most humbly beg to request that
you will be pleased to take my case into your kind
consideration.

I am employed in this department as a
draughtsman and estimator since 1869 and serving
under your immediate orders for about 5 years during
which time I believe I have been discharging my duties
to your entire satisfaction. Ever since I joined this Distt.
I often suffered from severe illness partly owing to the
heavy work in office and partly to the unhealthy climate
of this District, and even in such a state, your honor is
well aware, that I have been attending to my duties never
allowing any arrears to accumulate.

The work of a draughtsman in this Distt.
having become heavier, the District Engineer Mr. Page

Letter No. 525 D.C. applied for an additional hand in his letter as per
March 1873.
do - No. 2423 D.C. Mr. Pargur and the Government had sanctioned one as a
March 1874.
G.O. No. 1193 D.C. Mr. Pargur
do - No. 1009 D.C. Mr. Pargur
1875.

1019: 1/2/77 J.B. 1/4/77

Temporary measure for six months. From the time
this temporary draughtsman's services were dispensed
with, I am carrying the duties of both Draughtsman
& Estimator single handed without any increase to
my present poor pay which your honor is well aware
is scarcely sufficient to procure the very necessities of
life.

3. A kind reference to Mr. Schoury's letters as *From Sedhant Range*
per margin as well as to the sections, Plan & Estimate *officer to Distt Engr*
of the Bheysari embankment to which I had prepared *25th July 1876*
in addition to my usual work of your honor's office, *- do - do - 27th Nov 1876*
while serving under Mr. Schoury will, I trust give
a pretty good idea of my qualifications.

4. Without being guilty of invidious comparison
I beg to add that draughtsman of the 2nd class
in the Bellary District discharging his ordinary
duties with the help of an assistant is favored the
other day with an increase of Rs 10, on the recommen-
dation of his District Engineer, such being
the case I respectfully crave your honor to favor
me with a like honor by forwarding this my application
to Government with your honor's recommendation
for increase to my present salary taking into your
honor's consideration that I have in May 1869
passed first in the first class as a Draughtsman &
Estimator and am performing to your entire satisfac-
tion all the additional duties devolved upon me
without

without an assistant and increase of pay risking the
health of myself and my large family.

For this act of generosity I as duty
bound shall ever pray & beg leave to remain.

Respected Sir

Your Most Obedient & Humble Servant
