*Proceedings of the Madras Government, Public Works Department,
24th April 1877. No. 1,414.*

No. 593. Read the following letter from Lieutenant-Colonel R. B. KENNEDY, District Engineer, Malabar, to the Chief Engineer, Public Works Department, Buildings and Roads Branch, dated Calicut, 10th April 1877, No. 5 :—

With reference to G.O., No. 1,209, dated 7th April 1877, I have the honor to report that acting on the telegram received by me dated 7th March 1877, I authorized the Range Officer to collect materials for erecting three timber groynes to protect the sea beach in the vicinity of the Custom-house, and he at once entered into a contract for that purpose ; a large quantity of the timber has already been delivered and work commenced. I presume I am justified by the concluding words of paragraph 1 of the above order in allowing these protective measures to proceed, as I am decidedly of opinion that without them the new Custom-house will be imperilled.

2. The survey and fortnightly report will be duly made.

3. I trust I may with reference to the cause of the encroachment be permitted to remark that the mischief commenced prior to the last two years, and that the preceding monsoons of 1873 and 1874 were specially remarkable for heavy rainfall.

No. 594. ORDER THEREON, 24th April 1877, No. 1,414.

CIVIL WORKS, No. 49.

THE action taken by the District Engineer for the construction of temporary timber groynes at Calicut for the protection of the Custom-house only is approved ; and while having due regard to the efficiency of the protective measures adopted, the District Engineer will be careful to restrict the expenditure to the lowest possible limit.

2. The Chief Engineer will visit this work on the first opportunity.

(True Extract.)

Colonel, R.E.,
Secretary to Government, P.W.D.

To the District Engineer, Malabar.

- „ Marine Department.
- „ Examiner of Public Works Accounts.
