Specification to accompany the Estimate for sloping
the Latink cutting on the southern side of the Officers' Quarters at
Mallapuram in Coondal Taluk.

Amount of Estimate Rupees 900----

The present cutting being 18 ft high at the western end
of the Quarters and only 15 ft from them completely shuts off
the sea breeze from the front of the Building: it is therefore
proposed to reduce it to a slope of 2 to 1 so as to improve the
ventilation.

The stone removed to be thrown at the back of the
out-houses and used to face the surface of the mach ground
and prevent its being washed away.

Accommodation and Quarters—Officers.

Read the following paper:—

No. 435. From Brigadier-General H. O'CONNELL, Quartermaster-General, to Colonel J. MICHAEL, c.s.i., Secretary to Government, Military Department; dated Fort St. George, 17th November 1877, No. 7683.

Enclosures 2.

Estimate (Rupees 900) for improving the ventilation of the Officers' Quarters at Malliaporam by sloping the cutting on the southern side.

At present, there is a cutting 18 feet high, which prevents the sea breeze reaching the building, and makes it very hot. Whether a British detachment or a Native is eventually to form the force at Malliaporam, the Officers' Quarters will be used.

The Commander-in-Chief having approved the estimate marginally noted, I am directed by His Excellency to submit them for the consideration and orders of Government.

2. If approved by Government, it is requested that the papers may be forwarded to the Department Public Works for disposal.

No. 436. ORDER THEREON, 26th November 1877, No. 6523.

Approved generally, and transferred to the Public Works Department for consideration and final disposal.
