No. 80. ORDER THEREON, 7th December 1877, No. 1,999 W.

THE list with the letter last submitted shows that the Overseer's charges in Malabar are twelve, to which twelve Overseers stand posted. Pending the re-organization and possible strengthening of the department, the provision of an extra Overseer for occasional duties cannot be sanctioned. Authority has already been granted to replace the services of Overseers removed for famine duty by passed candidates as temporary Overseers.

Sir

Adverting to G. O. N^o 794. W. of
28th September 1877, I do not see how the
extra duties thereby entailed are to
be carried out unless the Palghat
Range Officer is allowed another sub-
ordinate, and this will be the more
necessary if any work is to be done
at the Cruz Mileage Gap. I have already
requisitions from the Postal Department
at Allepy, and Quilon, with which
I am unable to comply from not
having any one available to look
after the work; an estimate also of

G. O. N^o 1235. W.
of 24th Oct/77

Supers 669 has just been sent to
Palghat for some by the District Engineer Timmelly
11278-6-11- for some Military Works at Quilon,
and

and work has also had to be done
at Trichoor. I would propose an
Overseer to be stationed at Cochin
with the ordinary establishment
of a Salug Overseer, and as all his
travelling will have to be done by
water, that he should be provided
with a boat; he could have charge
of works at Cochin, Trichoor, Alapp.
Quilon, and also care of some
portion of the West Coast Canal.

2. The distance from Cochin
to Quilon is about the same as
from Cochin to Beypore.

Memorandum.

Letter from the District Engineer
Malabar, No 116, dated 5th November 1877.

In the Distribution Return, of officers
and Subordinates for the Malabar District,
last received, it is remarked that an
Overseer stands allotted to "Cochin" who
has been temporarily transferred to Famine
Relief duty; in Chief Engineer's Memo No
1601 dated 3rd November 1876 it was
notified that the place of subordinates
temporarily removed for such duty
might at once be temporarily filled
up by passed candidates.

2. The District Engineer is therefore
at liberty to make the arrangement
he asks for without further reference to
Government simply reporting the
the

the entertainment of the temporary
Overseer vice Overseer Timothy proceeded
to on Famine Relief duty and quote
the Chief Engineer's Memo above
alluded as his authority.

Sir,

With reference to your Memo:
N^o 3808 of 10th Instant, I have the honor
to state that no Overseer from this
District except Mr Thomas remains
transferred to Famine Relief duty; in
my letter N^o 116 of 5th November I requested
that authority may be given for an addi-
tional Overseer to the District to be
permanently posted for the works at
Cochin, and those at Allepey and Quilon;
it is difficult to get men to accept
temporary employment, when it involves
the heavy cost of a journey from Malabar
to the other coast, when their services are
dispensed with.

The Chief Engineer,
Public Works Department
Madras.

Sir,
With reference to your No. 4024 of the 20th instant, I have the honor to forward the Nominal Roll called for by you. When the allotment of Overseers for Malabar was settled by G. O. No. 467, dated 13th February 1873, none was allotted for Cochin. The extra Overseer will therefore have to be posted there which will leave the District without any Overseer to replace vacancies by sickness &c.

Up to this the work at Cochin could be superintended by the Ponany Overseer, this will be impossible in future. Quilon, Alleppey and Trichoor having been added to this District.

I have the honor to be
