PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

Read the following paper:—

No. 117. From Captain R. R. E. BROCKMAN, R.E., District Engineer, Tanjore, to the Chief Engineer, Buildings and Roads Branch, dated Camp, Cabistilam, 7th December 1877, No. 2,103.

I HAVE the honor to inform you that the Range Officer reports that much inconvenience is at present felt for want of accommodation for the office of the Taluq Overseer at Sheally, and for the custody of the tools, &c., under his charge. As the old Taluq Cutcherry at Sheally has ceased to be occupied on the construction of the new Cutcherry in 1874, I have requested the Collector to let me know if the building in question is no longer required by the Revenue Department in view to its being adapted as a Store-shed and Overseer's office, and the Collector in his No. 3,933, dated the 1st December 1877, states that he has no objection to the building being accordingly made use of, and has directed its transfer to the Department of Public Works under G.O., No. 157, dated the 29th May 1877. I request, therefore, that the sanction of Government may be obtained for the occupation of the above building as an Overseer's store-shed and office at Sheally, as thereby the Government will be saved the expense of constructing a new building for the purpose.
