22nd January 1877. No. 211.*

No. 410. Proceedings of the Madras Government in the Revenue Department, dated 15th January 1877, No. 276.

Read the following Proceedings of the Board of Revenue, 5th January 1877, Miscellaneous No. 88, on letter from the Acting Collector of Tinnevely, dated 23rd November 1876, No. 693.

WITH reference to Board's Proceedings, Miscellaneous No. 9,511, dated 6th November 1876, I have the honor to inform you that the estimate for the Police huts at Viziaputhy was never sanctioned at all. It was received back with Board's Proceedings No. 4,934, dated 6th August 1873, sanctioning the estimates for Sruthanguti and Kayalpatam, and passed on to the Public Works Department by mistake as a sanctioned estimate. It was submitted by the District Engineer to the Chief Engineer on the 24th July 1876.

SUBMITTED to Government with reference to the remark opposite to Tinnevely in the statement in paragraph 2 of Board's Proceedings, dated 4th November 1876, No. 2,740.

2. There is nothing to show that the estimates* were ever received in the Board's Office and returned to the Collector. They may, however, be now considered as sanctioned.

* Rupees 2,580.

COMMUNICATED to the Public Works Department, in continuation of G.O., on Board's Proceedings, 4th November 1876, No. 2,740.

No. 411. ORDER THEREON, 22nd January 1877, No. 211.

CIVIL WORKS, No. 13-A.

COMMUNICATED to the District Engineers concerned with reference to G.O., No. 3,428, dated 3rd December 1875.

2. It is presumed that the plans and estimates of all sanctioned works have now been made over to the District Engineers, although no assurance of this is given in the Board's Proceedings, No. 2,740, dated 4th November 1876. As regards Police huts at Viziaputhy (Item No. 79), attention is called to G.O., No. 2,380, dated 7th September 1876, from which it will be seen that a revised estimate amounting to Rupees 2,760 has been sanctioned for these buildings.

3. Adverting to paragraph 4 of the Board's Proceedings, No. 2,740, dated 4th November 1876, it is remarked that under the orders of the Government of India no new works can now be undertaken, least of all, works* whose estimates have not been sanctioned. And it will be seen from the orders of the 8th December 1876, No. 3,321, that District Engineers have been instructed to defer the execution of all

* e.g., the two works in the Kistna District.

*Proceedings of the Madras Government, Public Works Department,
22nd January 1877. No. 211.*

works not actually commenced, with a view to the funds being surrendered to the Government of India. As regards the work in the Madura District which it is proposed to enter in the Budget of 1877-78, it is remarked that it is quite impracticable at this late date to make any provision for it; the Imperial Budget having already been prepared and approved by Government. Timely arrangements should in future be made for the inclusion of Salt Works in Public Works Budget Estimates; all requirements being brought forward through the District Budgets which are submitted to Government during October of each year; and plans and estimates prepared under the rules laid down in Chapter V of the Public Works Code, paragraphs 84 to 86. In fact Salt Works should be treated in all respects like other Public Works.

To The Collector of Pistoia District.

Sir,
With reference to your letter No. 463 dated
29th March last, I have the honor to inform you that
the estimate referred to was prepared in October 1874,
since then the rate of Pistoia has increased, and the
estimate will have to be increased. Moreover it ap-
pears from G.O. J. D. No. 2207 dated 27th October 1875
that the construction of huts with mud walls
for permanent occupation is prohibited and in lieu
is ordered the substitution of sun-dried bricks -
which will add Rs. 80 & 66 to the cost of each hut.
2. The annexed table shows the amounts that
will be required against each of the totals, if the
estimates were to be revised with regard to more
current rates.
3. If the increased estimates are approved, I
will put the work in hand at once. I conclude
the Salt Dept. will be able to point out the
sites.

and 1705, Communicated respectively with the Board's Miscellaneous numbers 7693 and 8174 of the 24th August and 9th September 1875, and made over to the Superintending Engineer immediately on their receipt. No estimate has yet been prepared for the construction of permanent locks or sluices, although it was called for from the Superintending Engineer in July 1875, for reasons that will be explained separately. The allotment for it in the Salt Budget of 1875-76 has consequently lapsed, and no provision has been made in any of the Budgets of this year. I have now informed the Superintending Engineer, with reference to para 2, that the work was transferred to the Public Works Department, and will address the Board shortly regarding the same.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

 Read the following:—

Pro. of the Madras Govt. } (H.E. No. 136 of 15th Jan'y 1877)
 Revenue Dept. } (276-15th 1877)
 do do

Communicated to the
 District Engineers concerned
 with reference to H.E. No.
 3428, dated 3rd December 1875.

It is presumed that
 the plans and estimates
 of all sanctioned works
 have now been made
 over to the District En-
 gineers although no as-
 surance of this is given in the
 Board's Proceedings, No.
 2740, dated 2nd November 1876.
 As regards Police huts
 at Vizianpuri (H.E. No. 49)

attention is called to the
2380 dated 7th September
1876 from which it will
be seen that a revised
estimate amounting
to Rs 2760 has been
sanctioned for these
buildings.

Adverting to para 4
of the Board's Proceedings
No 240 dated 4th November
1876 it is remarked
that under the orders of the
Gov^t of India no new
works can now be under-
taken, least of all works
whose estimates have
not been sanctioned.
And it will be seen
from the orders of the 8th
December 1876 No 3321
that District Engineers
have been instructed
to

x e.g. the two works in
the Hissar District.

6
to defer the execution
of all works not actually
commenced, with a
view to the funds being
surrendered to the
Government of India.
As regards the work
in the Madana District
which it proposed to
enter in the budget
of 1877-78 it is remarked
that it is quite im-
practicable at this
late date to make any
provision for it; the
Imperial Budget having
already been prepared
and approved by
Government. Timely
arrangements should
in future be made
for the inclusion of
Salt.

Salt Works in Public
Works Budget Estimates;
all requirements being
brought forward as
through the District
Budgets which are
submitted to Govern.

ment during October
of each year, and Plans
and Estimates prepared
under the rules laid
down in Chapter V of the
P. W. Code, paras 84 to 86.
In fact Salt Works ~~are~~
~~carried out by the Public~~
~~Works Department~~ should be
treated in all respects
like other ^{Public} works executed
~~through the agency of that~~
Department.
