half-yearly tools and plant count, I have the honor to request permission to recover the value of the measuring tape from Mr. Mahony and of the other articles from Overseer Venkataswamy.

From Lieutenant A. R. F. DORWARD, R.E., Assistant Engineer in charge, Western Delta Division, Godavery District, to the District Engineer, Godavery District, dated Camp, Undi Canal, 22nd November 1877, No. 435.

I HAVE the honor to inform you that during the late half-yearly tools and plant count the following tools under the charge of Taluq Overseer Mr. Mahony were found missing:—

Description.		Value.		
No.		RS.	A.	P.
1	50 feet tape	...	2	2 0
1	Europe mamoty	...	1	0 0
1	Sledge hammer	...	2	0 0

The 50 feet tape was dropped by mistake into the canal by Mr. Mahony, who was unable to recover it.

The mamoty was given by Taluq Overseer Venkataswamy, before he handed over charge to Mr. Mahony, to a bantadar to do some work with. The bantadar ran away with the mamoty. The matter was reported to the Police, but they have been unable to recover the mamoty.

In taking over charge from Venkataswamy Mr. Mahony found one sledge hammer missing and stated this fact in the receipt for tools which he gave to Venkataswamy. On being asked for explanation Overseer Venkataswamy stated that when he took over charge from his predecessor a mason's hammer was given to him instead of a sledge hammer, and that through oversight he did not bring the matter to notice. The total number of masons' hammers however is correct, so that on Overseer Venkataswamy's own showing he must have lost one mason's hammer which he received instead of a sledge hammer. I have the honor to request instructions as to how I am to proceed in the matter.

No. 186. ORDER THEREON, 20th December 1877, No. 2,188 W.

THE District Engineer's proposals are approved.
